Solaris Implementation George Becker, Mary E. S. Morris, Kathy Slattery, 1995 As with all corporate documentation there is a large hole between the steps necessary to install and support a solaris computing environment and the real world of day to day system administration This book attempts to bridge the gap between the real day to day world of system

Birman, Friedemann Mattern, Andre

Schiper, 1995-07-14 This book summarizes the current knowledge on a cascade of gene regulation levels which operate in the cytoplasm of eukaryotic cells and which has until recently been poorly understood While transcriptional control of eukaryotic genes has been extensively researched and the understanding of this process has reached very sophisticated levels post transcriptional control has received much less attention As the contributions in this book demonstrate not only is post transcriptional control in eukaryotes better understood it is now thought to be a major player in gene expression control in a number of key processes i e control of cell proliferation gametogenesis and early development or cellular homeostasis
