Sofies Verden:

Beyond Babar Sandra L. Beckett, Maria Nikolajeva, 2006-08-19 All too often attention is paid only to those children's novels that were written in English with non-English language works being passed over and neglected. **Beyond Babar: The European Tradition in Children's Literature** examines eleven of the most celebrated European children's novels in substantial critical essays written by well-known international scholars. This approach provides a comprehensive discussion of the selected works from a variety of theoretical perspectives. Each essay offers a critical introduction to the text that can serve as a point of departure for literary scholars, professors of children's literature, primary and secondary school teachers, and librarians who are interested in texts that cross languages and cultures. **Beyond Babar** is especially meant to assist instructors of children's literature who would like to use these texts in the classroom in order to begin to redress the English language dominance of many children's literature courses. This volume will also be of interest to the general public as its ultimate aim is to bring to the attention of all English-speaking readers the literature from other parts of the world in this case from Europe. **Beyond Babar** helps to facilitate the border crossings of these European masterpieces of children's literature into the English-speaking world. **The Norseman**, 2003 **Information Structure in a Cross-Linguistic Perspective**, 2016-08-29 The present volume draws together contributions from a number of scholars with an interest in empirical cross-linguistic description. Most of the papers were first presented at the symposium **Information Structure in a Cross-Linguistic Perspective** held in Oslo in November-December 2000. The descriptions are functionally oriented and their common focus is how information structure in a broad sense can be compared across languages. Information structure has been approached in a variety of ways by the authors so as to give a broad picture of this fundamental principle of text production involving the way in which a speaker/writer chooses to present a message in terms of given/new information, focus/cohesion, and point of view. Central to much of the research is the problem of establishing criteria for isolating linguistic constraints on language use from cultural/linguistic conventions in text production. The linguistic comparison includes English/German and/or one of the Scandinavian languages with sidelights to other languages. Most of the papers are text or corpus based and the ongoing work on parallel corpora in Scandinavia is reflected in several contributions. **Translation in Context** Andrew Chesterman, Natividad Gallardo San Salvador, Yves Gambier, 2000-01-01 This title is a collection of contributions illustrating research interests and achievements in translation studies at the turn of the 21st century. The contributions show how the context of translation has expanded to cover documentation techniques, cultural and psychological factors, computer tools, ideological issues, media translation, and methodologies. A total of 32 papers deal with aspects such as conceptual analysis in translation studies, situational/sociological and political factors, and psychological and cognitive aspects of translation. **Norwegian Literature**, 1997 **Bookbird**, 1996 **Sophie's World** Jostein Gaarder, 1995 **Sophie's World** Jostein Gaarder, 2007-03-20 A page-turning novel that is also an exploration of the great

philosophical concepts of Western thought Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world with more than twenty million copies in print One day fourteen year old Sophie Amundsen comes home from school to find in her mailbox two notes with one question on each Who are you and Where does the world come from From that irresistible beginning Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village Through those letters she enrolls in a kind of correspondence course covering Socrates to Sartre with a mysterious philosopher while receiving letters addressed to another girl Who is Hilde And why does her mail keep turning up To unravel this riddle Sophie must use the philosophy she is learning but the truth turns out to be far more complicated than she could have imagined
