left to figure things out for themselves In *It Takes a Family* Debra Jay takes a fresh approach to the recovery process by making family members and friends part of the recovery team beginning in the early stages of sobriety In straightforward compassionate language she outlines a structured model that shows family members both how to take personal responsibility and to build a circle of support to meet the obstacles common to the first year of recovery Together family members address the challenges of enabling denial and pain while developing their communication skills through practical easy to follow strategies and exercises designed to create transparency and accountability With this invaluable guide family members work together as they reinvent their relationships without the all consuming dysfunction of active addiction **SAMHSA News**,1997 Beyond Mystery E.
