The Control of Chronic Pain Sampson Lipton, 1979 **Anaesthesia** Z. Lett, 1984-01-01 This recent publication is a unique contribution to the history of specialized medicine in Hong Kong Written by two of Hong Kong's foremost practitioners and teachers of anaesthesiology the work details the history of this specialty in Hong Kong including early pioneers the development of the Society of Anaesthetists the teaching of anaesthesiology at undergraduate and postgraduate levels the establishment of the Hong Kong College of Anaesthesiologists and recent developments in clinical anaesthesiology A wide range of appendices including lists of successive office holders of the specialist societies lists of scientific meetings relating to anaesthesiology held in Hong Kong and over 30 pages of plates featuring prominent personages in the field of anaesthesiology ensure that this will remain a landmark volume in recording the development of anaesthesiology in Hong Kong

The Therapy of Pain M. Swerdlow, 2013-03-13 The past few years have seen the publication of a large number of articles and not a few books on the subject of relief of intractable pain New ideas have been put forward on pain mechanisms new methods of treatment have been reported and improved results claimed and a growing catalogue of complications of treatment has been recorded The vast and expanding literature on the subject poses for the reader the dual problems of surveillance and of assessment The object of the present book is to provide a critical and constructive review of current writings and ideas on a wide range of aspects of the nature of intractable pain particularly of present day practice and new ideas on treatment Each chapter is written by an acknowledged authority and the approach throughout is practical rather than academic In editing the individual chapters an effort was made to achieve a contemporary approach and to eliminate material which was unduly historical or retrospective in content At the same time the individual style of the authors was retained as far as possible For decades chronic pain has been a therapeutic no man's land For the surgeon pain was an unfortunate complication which not infrequently followed surgery for the physician it was a distressing symptom in a number of disease syndromes to the psychiatrist it was one of a number of features in many cases of mental illness
