The Happiness Effect Donna Freitas, 2017-01-02 Sexting Cyberbullying Narcissism Social media has become the dominant force in young people's lives and each day seems to bring another shocking tale of private pictures getting into the wrong hands or a lament that young people feel compelled to share their each and every thought with the entire world. Have smartphones and social media created a generation of self-obsessed egomaniacs? Absolutely not, Donna Freitas argues in this provocative book. And she says these alarmist fears are drawing attention away from the real issues that young adults are facing. Drawing on a large-scale survey and interviews with students on thirteen college campuses, Freitas finds that what young people are overwhelmingly concerned with what they really want to talk about is happiness. They face enormous pressure to look perfect online, not just happy but blissful, ecstatic, and fabulously successful. Unable to achieve this impossible standard, they are anxious about letting the less-than-perfect parts of themselves become public. Far from wanting to share everything, they are brutally selective when it comes to curating their personal profiles and worry obsessively that they might unwittingly post something that could come back to haunt them later in life. Through candid conversations with young people from diverse backgrounds, Freitas reveals how even the most well-adjusted individuals can be stricken by self-doubt when they compare their experiences with the vast collective utopia that they see online. And sometimes, as on anonymous platforms like Yik Yak, what they see instead is a depressing cesspool of racism and misogyny. Yet young people are also extremely attached to their smartphones and apps, which sometimes bring them great pleasure. It is very much a love-hate relationship. While much of the public's attention has been focused on headline-grabbing stories, the everyday struggles and joys of young people have remained under the radar. Freitas brings their feelings to the fore in the words of young people themselves. **The Happiness Effect** is an eye-opening window into their first-hand experiences of social media and its impact on them.

Death Be Not Proud David Marno, 2016-12-21 The seventeenth-century French philosopher Nicolas Malebranche thought that philosophy could learn a valuable lesson from prayer, which teaches us how to attend, wait, and be open for what might happen next. **Death Be Not Proud** explores the precedents of Malebranche's advice by reading John Donne's poetic prayers in the context of what David Marno calls the art of holy attention. If, in Malebranche's view, attention is a hidden bond between religion and philosophy, devotional poetry is the area where this bond becomes visible. Marno shows that in works like **Death Be Not Proud**, Donne's most triumphant poem about the resurrection, the goal is to allow the poem's speaker to experience a given doctrine as his own thought, as an idea occurring to him. But while the thought must feel like an unexpected event for the speaker, the poem itself is a careful preparation for it. And the key to this preparation is attention, the only state in which the speaker can perceive the doctrine as a cognitive gift. Along the way, Marno illuminates why attention is required in Christian devotion in the first place and uncovers a tradition of battling distraction that spans from ascetic thinkers and Church Fathers to Catholic spiritual exercises and Protestant prayer manuals. **Catholic World**, 1889
