**Tigor** Peter Stephan Jungk, 2004 Tigor is an adventure novel the minute details of which read real to the extreme they appear as though they had been seen touched smelled and tasted by the author himself The reading offers a sheer delight Peter Handke This novel is spectacularly successful in making sense of the beguiling and the contrary in investigating and accommodating the mess of the modern world The Times Literary Supplement It is encouraging in what seems an increasingly anti intellectual world to find a novel which while making no apology for its own cleverness wears its learning so lightly A fitting homage to Beckett one feels The Times of London Jungk has created a Quixote of deep and heartbreaking humanity whose terrible end shows up not the emptiness of belief but the savagery of ignorance The Independent Giacompo Tigor the unassuming hero of Peter Stephan Jungk's novel is a professor of mathematics a proponent of Euclidian geometry reeling from a succession of intellectual defeats sustained at the hands of the advocates of chaos theory Returning to his native city of Trieste for a conference Tigor finds he is no longer able to face the banal constraints of the life he has made and so he goes AWOL first to Paris where he fulfills a boyhood dream to work in the Od on Theater as a stagehand There he experiences a vision of Mount Ararat holy mountain of the Armenian people the landing point of Noah's Ark His vision drives him onward to the East where his flight evolves into a quest to find the remains of the Ark Tigor is an inspired marriage of the mysterious and the seemingly mundane of gentleness and drama order and chaos This utterly singular work reimagines the novel form and lingers in the reader's mind long after it has been set aside
