

HORSE CHESTNUT *Flora Sycamore*
— British trees to the core ... are they not? In fact no. They are not ours at all. Of 600 species that grow in Britain today, some 25 only are truly ours.

How then did we come by our present rich store? Some species may have come over with the Romans. A trickle of introductions with the returning Crusaders, but the trickle became a flood as our seafaring prowess developed. By the end of the 19th Century, from Europe, the Americas and Asia we had collected an embarrassment of riches.

The intrepid travellers, whose activities are so vividly described in this book, were supported by Patrons who planted the new trees and recorded their progress through the years. Not since the great works of Loudon published in 1838 and Elwes & Henry between 1890-1913, has there been an attempt to update and consolidate the record of trees.

In this book Scott Leathart provides the complete update for 125 of them. The natural distribution and habitat of the trees, their associates in the forests, their life histories, aesthetic merits and timber uses. The dates and means of their introduction to the Country and their subsequent performance, with measurements provided by Alan Mitchell and the Tree Register of the British Isles. The location of individual specimens, some of them mentioned by Loudon and Elwes & Henry and still alive today.

H.R.H. The Prince of Wales has been gracious enough to write in his foreword, "A splendid and valuable work of reference and enjoyment ... I am delighted to have this opportunity of welcoming a book which will become a standard reference work for foresters and gardeners". Tribute indeed to a lifelong study of trees.

To Peter,
as the worth of these trees

WHENCE OUR TREES

Scott Leathart M.B.E., M.A., F.L.S.

Foreword by
His Royal Highness, The Prince of Wales,
Duke of Cornwall

foulsham
