The ^AOxford Handbook of Political Consumerism Magnus Boström, Michele Micheletti, Peter

Oosterveer, 2019-01-25 This volume offers the first comprehensive theoretical and comparative overview of the ways in which the market becomes a political arena It maps the four major forms of political consumerism boycotting buycotting spending to show support lifestyle politics and discursive actions such as culture jamming Chapters by leading scholars examine political consumerism in different locations and industry sectors and in consideration of environmental and human rights problems political events and the ethics of production and manufacturing practices *Social Science Perspectives on*

Climate Change David Canter, 2017-10-02 Although it is generally accepted that the climate is changing for the worse and that human activities are a major contributing factor in that change there is still only marginal response to the challenge posed by climate change The reasons behind this limited response are becoming clearer through the recognition that climate change is not just a set of physical science facts but it is also part of a series of complex social processes Consequently this book is important in providing social science perspectives on a range of attempts to adjust human activity to reduce its environmental impact These attempts vary from the changing of the dress code in Japanese offices to the creation of zero carbon gated communities in Bangalore India Taken together the contributions to this book provide timely insights into the complexities of saving the planet through human endeavour This book was originally published as a special issue of
