When I am weak then I am strong Do we really believe these words penned by the apostle Paul If so why do we often rely on our own wits strength and resources when the power that God holds is so much greater Does God s power matter if He s already given us talent and ability Author Dan Schaeffer explores these questions and helps us grasp the biblical truth that God longs to use our limitations to display His greatness *The Power of Weakness* invites you to trust God with your abilities and inabilities and find relief from the wearying pursuit of success

**Introducing Electronic Voting** Peter Wolf,Rushdi Nackerdien,Domenico Tuccinardi,2011-12-01 Electronic voting is often seen as a tool for making the electoral process more efficient and for increasing trust in its management Properly implemented e voting solutions can increase the security of the ballot speed up the processing of results and make voting easier However the challenges are considerable If not carefully planned and designed e voting can undermine the confidence in the whole electoral process Technology upgrades in elections are always challenging projects that require careful deliberation and planning Introducing e voting is probably the most difficult upgrade as this technology touches the core of the entire electoral process the casting and counting of the votes E voting greatly reduces direct human control and influence in this process This provides an opportunity for solving some old electoral problems but also introduces a whole range of new concerns Consequently e voting usually triggers more criticism and opposition and is more disputed than any other information technology application in elections This Policy Paper outlines contextual factors that can influence the success of e voting solutions and highlights the importance of considering these factors before choosing to introduce new voting technologies
