

A TEXTBOOK OF TRANSLATION

This major new work by Professor Newmark is a textbook and a handbook of translation for English and foreign students working alone or on courses at degree and post-graduate level.

Part one consists of a comprehensive discussion of major subjects and problems that arise in translating: the process of translating, text analysis, translation methods, text as a translation unit, translation procedures, cultural aspects of translation, use of the case grammar and componential analysis, and the translation of metaphors. There are chapters on translation criticism and technical and literary translation, as well as revision, deadlines, exams and use of reference books. Shorter passages discuss pun, dialect and ambiguity.

Part two consists of illustrative examples of translational text analysis, translation with commentary and translation criticism.

The book also attempts to convey some of the excitement and the centrifugal tension of translating a challenging text.

Peter Newmark teaches at the Centre for Translation and Language Studies at the University of Surrey where he is a Visiting Professor. He has translated books, articles and advertisements and publishes and lectures widely. He is a member of the Examination Board of the Institute of Linguists and a trustee of the Mary Glasgow Educational Trust.

A Textbook of Translation was awarded the British Association of Applied Linguistics prize in 1988.

A CRITIQUE OF TRANSLATION THEORIES IN CHINESE TRADITION HONGYIN WANG,2018-02-22 A Critique of Translation Theories in Chinese Tradition From Dao an to Fu Lei represents an attempt to review traditional Chinese translation theories covering an intellectual history of about 2 000 years

from Eastern Han Dynasty 25-220 in dynastic China up to contemporary China. Following an approach informed by the Western history of philosophy, this two-volume work makes detailed analysis and modern interpretation of ten major theories or theoretical argumentations from the theory of Dao to an early Buddhist sutra translator and theorist, to that of Fu Lei, a contemporary Chinese translator of French literature. Throughout the critique in Volume One, a three-dimensional methodology is adopted in different theoretical contexts: that is, historical evaluation, theoretical explanation, and creative modern transformation of each theory with regard to its basic propositions, concepts, and categories from its classical form into a modern form. Presented in Volume Two is what the author has got in his exploration by drawing on the traditional Chinese culture resources into the modern Chinese translation theory, now still in the making.
