## **Theorizing Gender:**

*Theorizing Gender* Rachel Alsop, Annette Fitzsimons, Kathleen Lennon, 2002-06-03 This accessible text aims to give a theoretical overview of approaches to gender. The book discusses the major theories concerned with the ways in which we become engendered and explains and evaluates naturalist, psychoanalytic, materialist, and post-structuralist accounts. Tensions between these different approaches are acknowledged but stark polarities are resisted. Throughout the book it is recognized that becoming gendered implicates and is implicated by other aspects of social becoming. The work of Judith Butler is discussed in detail and its importance and limitations spelt out in key chapters on sexuality, the body, transgenering, and political agency. Debates between queer approaches to gender and those prioritizing sexual difference are also brought to the fore. *Theorizing Gender* aims to provide a framework for weaving together what are often viewed as opposing directions of thought. Students and researchers in sociology, philosophy, and gender studies, and all those with an interest in gender, will find it an invaluable resource.

*Theorizing Gender Violence* Sarah Jane Brubaker, 2019-04-22 *Theorizing Gender Violence* introduces students to critical sociological theories used to understand and respond to gender violence. The text emphasizes feminist theory and demonstrates how other theories have supported, challenged, and expanded upon feminist theory to shape and enrich various approaches to and perspectives regarding the subject. The text examines multiple types of gender violence, including physical, psychological, emotional, and sexual, as well as a range of contexts of violence, including domestic violence, campus sexual assault, stalking, and more. Dedicated chapters examine theories commonly used by researchers and practitioners, including Johnson's typology, male peer support theory, intersectionality, queer theory, ecological frameworks, and routine activities theory. For each student, a vignette is provided to learn the background of the theory, examine an analysis of the theory, and then engage more deeply with the material through reflection questions, a case example, and a reflection contributed by a scholar in the field. The text concludes by summarizing the theories, identifying their similarities and differences, and discussing the current state and the future of the field. *Theorizing Gender Violence* is part of the Cognella Series on Family and Gender-Based Violence, an interdisciplinary collection of textbooks featuring cross-cultural perspectives, cutting-edge strategies, and interventions, and timely research on family and gender-based violence.

*Theorizing Gender* Rachel Alsop, 2002

*Confronting Power, Theorizing Gender* Eudine Barriteau, 2003 Extrait de la couverture This anthology of Caribbean feminist scholarship has several unique features. It exposes gender relations as regimes of power and consolidates and advances indigenous feminist theorizing. A particularly strong section of the collection deconstructs marginality and masculinity in the Caribbean and provides ground-breaking research with policy implications. The major breakthrough is the recognition that this area of research includes both men and women as integral to a more adequate conceptualization of society, polity, and economy, thereby enabling scholars to address more fully the realities of social life. The temper of the times suggests that a significant watershed in gender studies has been reached.

**Marginal Groups and Mainstream American Culture** Yolanda Estes, 2000 They are often portrayed as outsiders ethnic minorities the poor the

disabled and so many others all living on the margins of mainstream society. Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups. Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders. Taking a more intimate approach, this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals. Multidisciplinary and multicultural, *Identity on the Margin* addresses marginalization at a variety of social levels and within many different social phenomena, going beyond familiar cases dealing with race, ethnicity, and gender to examine such outsiders as renegade children, conservative Christians, and the physically and mentally disabled. And because women are especially subject to the effects of marginalization, feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays. From problems posed by complimentary racism to the status of gays in Tony Blair's England, from the struggle of Native Americans to preserve their identities to the singular problems of single mothers, *Identity on the Margin* takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society. In all of the cases, the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects. Bringing together accounts of marginalization from many different disciplines and perspectives, this collection addresses a broad audience in the humanities and social sciences. It offers a basis for enhancing our understanding of this process and for working toward meaningful social change.

*A Focus on Gender*  
Sunita Kishor, 2005. This report presents a collection of six working papers on the dynamics of gender in developing countries. The papers commissioned by the MEASURE DHS project were prepared by researchers recognized for their work in the areas of demography, reproductive health, and gender. The analyses presented are based on data from the Demographic and Health Surveys DHS project. Funding was provided by the U.S. Agency for International Development (US AID). A common theme of several of the papers is the struggle to define women's empowerment and/or autonomy and then to adequately measure it. Five of the working papers in this volume focus on the gender questions in the core DHS questionnaire, particularly the questions on household decision making and women's autonomy and empowerment and their relationship to different population health and nutrition PHN outcomes of interest. The last paper examines whether PHN outcomes of interest vary by women's experience of domestic violence. The PHN outcomes studied by the papers include child health, nutrition, mortality, women's nutrition, maternal care, and reproductive health, as well as condom use and their risk of sexually transmitted infections and condom use.

*Caribbean Quarterly*, 2004. *Gender*. Carol C. Gould, 1999. Here is a comprehensive collection of the most important essays on gender in the last two decades. It presents lively, controversial, and critical discussions concerning such themes as the social constitution of gender, the nature of sexual oppression, the relation of gender to family, class, race, and culture, and feminist perspectives on science and philosophy. It also includes leading essays

on questions of ethics and difference in the law such as privacy pornography and reproductive rights It is an indispensable text for courses in feminist philosophy and theories of gender as well as an important resource for scholars in philosophy and the social sciences
