Two Paths Toward Peace:

Paths To Peace Richard Smoke, Willis W Harman, 2019-06-26 A primer on thinking about peace in a nuclear age this book describes the kinds of peace efforts that have been tried and those that might be tried from the highest echelons of government policymaking to the grassroots level of individual endeavour Its primary goal is to enable the reader to understand ways of eliminating the threat of nuclear war and to be empowered to take action The book describes and compares nine basic methods people have used to achieve peace ranging from such conventional approaches as the theories of deterrence and balance of power to more unconventional strategies such as nonviolent resistance Essentially all significant ideas for achieving and maintaining international peace fall into one of these nine categories or combine features from several Many have been tried but all clearly have been found wanting Yet the authors tone is one of optimism as they explore some of the major changes of the past quarter century They contend that these changes alter the balance of advantages and disadvantages among the various paths to peace so that what seemed partially workable in the past may not be appropriate to the present and what seemed totally impractical in the past might have a chance of working today The book concludes with a scenario that may make a stable peace possible in the foreseeable future

Two Paths Toward Peace Donald Scherer, James W. Child, 1992 What makes violence bad Is peace merely the absence of war Is non violence anything more than not acting violently When if ever is violence justified Can violence stop violence These are among the difficult issues that are grappled with in the uniquely structured **Two Paths Toward Peace** In this book an advocate of minimum justified violence Child and a pacifist Scherer engage in a dialogue about the uses and abuses of violence in the contemporary world Scherer begins the exchange with a thoughtful and coherent explanation of traditional pacifism and an introduction to a new conception of pacifism teleological pacifism which was espoused by Gandhi Child responds by assessing the cost of uncritical pacifism particularly in the 20th century The authors then embark on a detailed three part inquiry dissecting first the concept of justified violence then the concept of pacifism and finally exploring the interplay between these two concepts Author note James W Child is Associate Professor of Philosophy and Senior Research Fellow at the Center for Social Philosophy and Policy Bowling Green State University P Donald Scherer is Professor of Philosophy at Bowling Green State University and the editor of *Upstream Downstream Issues in Environmental Ethics* Temple

Media and the Path to Peace Gadi Wolfsfeld, 2004-01-15 This is the first book to examine in detail the roles that the news media can play in an ongoing peace process Gadi Wolfsfeld explains how the press's role in such processes varies over time and political circumstance He examines three major cases the Oslo peace process between Israel and the Palestinians the peace process between Israel and Jordan and the process surrounding the Good Friday Agreement in Northern Ireland Wolfsfeld's central argument is that there is a fundamental contradiction between news values and the nature of a peace process This often leads the media to play a destructive role in attempts to make peace but variations in the political and media environment affect significantly exactly how the media behave Wolfsfeld shows how the media played a mainly destructive role in the Oslo peace process but were more constructive during the Israel Jordan process and in
