*Literate Culture* Ruben Quintero, 1992 Rhetorical strategies explored in some detail are Pope's use of generic expectations in either traditional poetic kinds or in his own metamorphosed versions underlying structures of argument patterned after classical oratorical models his methods of appeal through rational argument character or emotion his reliance on personae and his variations of expressive transparency and opacity correlating with classical views of formalistic refinement and poetic distance of light and shadow The *Dunciad Variorum* 1729 roughly divides Pope's poetical career In 1729 Pope began his serious planning for an opus magnum which later became his *Moral Essays* and *An Essay on Man* and shortly thereafter he turned his attention to the composition of his Horatian satires It appears that the satirical muse of his *Moral Essays* prepared him for the crucial inspiration of his friend Lord Bolingbroke around 1733
