Political and Military Sociology Bruce D. McDonald III, 2017-07-12 Political and Military Sociology Volume 41 explores the social elements and impact of national defense. The origin of government is a response to a society's common interest in security and defense. In recent years, security and defense issues and government responses have become increasingly prominent in societies around the world. Despite intermittent pushes for privatization, however, security and defense have remained core functions of government. In this volume, Bruce D. McDonald III investigates the historiography of the defense-growth relationship. Lachezar G. Anguelov and Robert J. Eger III consider the social impact with a case study of the Republic of Serbia. Maximiliano Mendieta and Bruce D. McDonald III consider the social spillovers of the sector that arise after the completion of a soldier's service. Paul Kellogg considers why some countries have fared well when others have been slow to rebound. Hamid E. Ali studies pork barrel spending in the United States. Susan Sample Brandon Valeriano and Choong Nam Kang broaden the understanding of the defense sector to include its output. Hamid E. Ali and Ubah A. Adan conclude the volume with a study on conflict and infant and child mortality rates. Traditionally, national defense is viewed solely in military terms. As part of their national security objectives, many defense sectors have undertaken a variety of social programs. While the existence of social programs is known, what remains uncertain is how they spill over from the sector to society at large and what is the impact of that spillover.

Winning Travis Moody, 2016-05-13 There is no question that life is definitely more fun when we win. Unfortunately, many of us are just drifting through life while often facing defeat at every turn. We long to improve our relationships, our health, and our finances, but for many of us, it seems as though we are just getting by in life. The good news is that God does not want us just to survive so that we can enjoy eternity; God wants for us the same thing that we all want for ourselves: to win in life. He wants for us to win in our relationships, in our health, and in our finances. This book will help you do just that. Winning begins with a brief self-assessment that encourages honest reflection on the kinds of behaviors that trigger freedom, peace, and inner strength. Travis Moody, a former college athlete and corporate executive turned life coach and stewardship consultant, relies on his personal experiences—both good and bad—to provide practical and spiritual advice intended to help you move from merely surviving to living a life of success and ultimately a life fulfilling your own unique purpose. In this step-by-step guide, you will learn how to win in every area of your life.

Restructuring Development Theories and Policies M. Shamsul Haque, 1999-09-09 In the contemporary global context, replete with various forms of development crises, there is a growing demand for an alternative perspective. Haque explains the nature and forms of these current development crises, critiques the inadequacies of existing development theories to address such crises, restructures these theories into an alternative theoretical perspective, and suggests specific policy guidelines for attaining a genuine mode of development. He interprets development not as human conformity with any hegemonic development schemes but as human autonomy from various forms and levels of subjugation. The book presents original arguments, covers

up to date literature adopts a multidisciplinary approach mediates between theories and policies and offers a comprehensive development alternative

Bible Promises for Dads Nick Connolly, 2026-03-03 What makes a good dad It doesn't mean being perfect or having all the answers Being a good dad starts with knowing who your good faithful Father is trusting Him to guide you and believing the power of God's promises found in the Bible The words of God are life and light on the pathway of fatherhood and we desperately need someone to show us the way on this journey This pocket size book of Scriptures provides hundreds of Bible promises that are relevant to the needs of every dad interweaving them with wisdom and personal reflections from pastor and author Nick Connolly Arranged topically for easy use Bible Promises for Dads will give you the Bible verses you need to guide you through parenting when you want to teach your children to trust God when your family is facing an unexpected challenge when you want to encourage your children when you need encouragement yourself when you need to be reminded that your role as a dad matters and many more In Bible Promises for Dads you'll find God's timeless truths for life and fatherhood and gain confidence and courage for your fathering adventure

Counting for Nothing Marilyn Waring, 1999-12-15 Safe drinking water counts for nothing A pollution free environment counts for nothing Even some people namely women count for nothing This is the case at least according to the United Nations System of National Accounts Author Marilyn Waring former New Zealand M P now professor development consultant writer and goat farmer isolates the gender bias that exists in the current system of calculating national wealth As Waring observes in this accounting system women are considered non producers and as such they cannot expect to gain from the distribution of benefits that flow from production Issues like nuclear warfare environmental conservation and poverty are likewise excluded from the calculation of value in traditional economic theory As a result public policy determined by these same accounting processes inevitably overlooks the importance of the environment and half the world's population Counting for Nothing originally published in 1988 is a classic feminist analysis of women's place in the world economy brought up to date in this reprinted edition including a sizeable new introduction by the author In her new introduction the author updates information and examples and revisits the original chapters with appropriate commentary In an accessible and often humorous manner Waring offers an explanation of the current economic systems of accounting and thoroughly outlines ways to ensure that the significance of the environment and the labour contributions of women receive the recognition they deserve
