World Of Babies:

A World of Babies Judy S. DeLoache, 2000-05-18 Are babies divine or do they have the devil in them Should parents talk to their infants or is it a waste of time Answers to questions about the nature and nurture of infants appear in this book as advice to parents in seven world societies Imagine what Dr Spock might have written if he were a healer from Bali or an Aboriginal grandmother from the Australian desert or a diviner from a rural village in West Africa As the seven childcare manuals in this book reveal experts worldwide offer intriguingly different advice to new parents The creative format of this book brings alive a rich fund of ethnographic knowledge vividly illustrating a simple but powerful truth there exist many models of babyhood each shaped by deeply held values and widely varying cultural contexts After reading this book you will never again view child rearing as a matter of common sense *A World of Babies* Judy S.
