

**OK, *Great!* We have finally received permission to market one of the all-time most effective and most profitable handicapping methods ever written.**

**In fact, not only will you be getting this extraordinary method, which works both with previous running lines or previous odds, *but you will also be receiving a bankroll management plan from the same author which virtually assures a profit - it can withstand a dozen and a half losses in a row, something that will rarely happen with any method!* And, there's still more....**

Ever hear of the *LGH Favorable Form Cycle*? Well, maybe you have heard whisperings about it at the racetrack, or seen references to it in books by famous turf authors. But chances are good that you have never actually had the chance to handicap with it, *very simply because it has never been made available to the racing public.*

As you probably know, we are always looking for ways to increase our bottom line at the racetrack. As yet, we haven't found anything that will make you fabulously wealthy, but *we have found plenty of methods, both paper and pencil and software, that will allow the average 'Joe' to make from some decent pocket change to an actual supplemental income from the races.*

And, **LGH** certainly fits into the latter category. This is a method by the celebrated Lou Holloway, one of his personal favorites and one that has certainly stood the test of time. You have to appreciate the ability of handicappers who made a living from wagering on thoroughbreds long before computer handicapping came into existence, not to mention published par time charts, turn-time theories, published jockey and trainer stats, etc., which also did not exist.

I'll tell you quite honestly, we are probably the only purveyor of handicapping goods that actually seek out methodologies that have long since been forgotten. **We have approached many old-time handicappers, as well as the families of those deceased, to get a look at their work and run their systems and methods thru a modern-day database.**

Most of these guys, like Joe Alberti, Walt Owen, Rudy Billotta, Holloway, etc. (*along with the method we will also send you a rather remarkable story by Rudy, about how Lou would charge \$100 per hour, this is over 50 years ago mind you, to instruct players how to win with his methodologies, and had people lining up!*), took the time to construct their own 'databases', paper and pencil in those days!, to prove out their racetrack theories, so they were light years ahead of the general racing public and happily took their money via the mutuel windows.

The *LGH Favorable Form Cycle*, amazingly, works on Thoroughbreds, Harness and even Quarters. You can expect a win % in the 35% range and a positive ROI in the +24% range.
