never kept a journal Roland Barthes declared in 1979 or rather I've never known if I should keep one The form itself he continued was inferior and unnecessary a minor mania of writing Barthes died months making this statement and the years since then have revealed that he had actually been concealing a fondness for diary writing The publication in 1985 of *Incidents* brought to light an intimate journal entitled *Soirées de Paris* while 2009 saw the appearance of two much longer diaries kept by Barthes following the death of his mother in 1977 and during a trip to China in 1974 respectively Further journals lie in the archive unpublished and largely unseen it is not clear if these will ever enter the public domain This collection which brings together some of the most prominent scholars in the field considers the present implications of Roland Barthes journals How do these diaries invite us to reconsider aspects of Barthes work which have become familiar through his reception as one of the twentieth century's most influential literary and cultural critics What do they allow us to see for the first time What is their relation to the works whose appearance Barthes authorized during his lifetime Where and how do they fit in his oeuvre How do they relate to each other across moment and mood Why might they call for deliberations This book was originally published as a special issue of *Textual Practice* *Reading McLuhan Reading* Paula McDowell, 2023-02-21 Sixty years after *Understanding Media* Marshall McLuhan remains one of the best known and most influential intellectuals of the twentieth century Far beyond academia readers and non readers recognize his coinages such as the Gutenberg era the global village and the medium is the message A literary scholar by profession McLuhan was one of the first academics to recognize the new opportunities offered by radio and television to reach audiences beyond the readerships of scholarly journals His talks and appearances ushered in public intellectual debate concerning the electronic age Although his reputation waned in the 1970s the recent making available to the public of his extraordinary personal library of some six thousand books enables new kinds of analyses of McLuhan as a reader thinker and cultural force The essays here focus not so much on his media theory per se as on the habits and practices that animated his reading and on the larger questions of what reading and not reading mean We don't need to agree with everything McLuhan says to make valuable use of his work New resources offer us an unprecedented opportunity to revisit one fallible human reader whose texts and ideas are good to think with and against This book was originally published as a special issue of the journal *Textual Practice* **Textual Practice** Christopher Norris, *Journal*, 1990-12-31 A general issue of *Textual Practice* with the usual combination of scholarly discourse and reviews This book should be of interest to academics and students of literature literary criticism media studies and philosophy **Thinking Poetry** Peter Nicholls, Peter Boxall, 2016-03-16 This collection brings together some of the most prominent critics of contemporary poetry and some of the most significant poets working in the English language today to offer a critical assessment of the nature and function of poetic thought Working at once with questions of form literary theory and philosophy this volume gives an extraordinarily diverse original and mobile account of the kind of thinking that poetry can do The conviction that moves through the collection as a whole is that poetry is not an

addition to thought nor a vehicle to express a given idea nor an ornamental language in which thinking might find itself couched Rather all the essays suggest that poetry itself thinks in ways that other forms of expression cannot thus making new intellectual political and cultural formulations possible This book was originally published as a special issue of Textual Practice
