THE COMPLETE VISUAL BASIC .NET TRAINING COURSE

Visual Basic .NET is the most powerful and easy-to-use programming language for developing Windows applications. This comprehensive training course covers everything you need to know to get started with Visual Basic .NET, from the basics of programming to advanced topics like database access and web services. The course is designed for developers who are new to Visual Basic .NET or who want to refresh their skills. It includes a wealth of examples, exercises, and projects to help you learn by doing. The course is divided into several sections, each covering a different aspect of Visual Basic .NET development. The first section covers the basics of programming, including variables, data types, and control structures. The second section covers the Visual Basic .NET environment, including the IDE and the .NET Framework. The third section covers the basics of Windows Forms development, including creating and customizing forms. The fourth section covers advanced topics like database access, web services, and security. The course is suitable for both beginners and experienced developers. It is a valuable resource for anyone who wants to learn Visual Basic .NET and develop professional-quality applications.
