## **Some One Sweet Angel Chile:**

**Some One Sweet Angel Chile** Sherley Anne Williams, 1982      **Liberating Voices** Gayl Jones, 1991

The powerful novelist here turns penetrating critic giving us a lively style and both trenchant literary analysis and fresh insight on the art of writing. When African American writers began to trust the literary possibilities of their own verbal and musical creations, she writes Gayl Jones, they began to transform the European and European American models and to gain greater artistic sovereignty. The vitality of African American literature derives from its incorporation of traditional oral forms: folktales, riddles, idiom, jazz rhythms, spirituals, and blues. Jones traces the development of this literature as African American writers celebrating their oral heritage developed distinctive literary forms. The twentieth century saw a new confidence and deliberateness in African American work: the move from surface use of dialect to articulation of a genuine black voice; the move from blacks portrayed for a white audience to characterization relieved of the need to justify. Innovative writing, such as Charles Waddell Chesnut's depiction of black folk culture, Langston Hughes's poetic use of blues, and Amiri Baraka's recreation of the short story as a jazz piece, redefined Western literary tradition. For Jones, literary technique is never far removed from its social and political implications. She documents how literary form is inherently and intensely national and shows how the European monopoly on acceptable forms for literary art stifled American writers, both black and white. Jones is especially eloquent in describing the dilemma of the African American writers to write from their roots yet retain a universal voice to merge the power and fluidity of oral tradition with the structure needed for written presentation. With this work, Gayl Jones has added a new dimension to African American literary history.

Speaking in Tongues and Dancing Diaspora Mae G. Henderson, 2014-05-07

The oral tradition has always played an important role in African American literature, ranging from works such as Zora Neale Hurston's *Their Eyes Were Watching God* to Toni Morrison's *Beloved*. These and countless other novels affirm the power of sonance and sound in the African American literary canon. Considering the wide swath of work in this powerful lineage, in addition to its shared heritage with performance, Mae G. Henderson deploys her trope of speaking in tongues to theorize the preeminence of voice and narration in black women's literary performance through her reconstruction of a fundamentally spiritual practice as a critical concept for reading black women's writing dialogically and intertextually. The first half of the book is devoted to influential works of fiction, as Henderson offers a series of spirited, attentive readings of works by Zora Neale Hurston, Alice Walker, Sherley Anne Williams, Toni Morrison, Gayl Jones, and Nella Larsen. The second half shifts gears to consider the world of female African American performance, most notably in the figures of Josephine Baker and the video dancer. Drawing on the trope of dancing diaspora, Henderson proposes a model of theorizing based on performing testimony and critical witnessing. Throughout the book, Henderson draws on a history of black women, not only in the Pentecostal Holiness Church but also within the traditions of classical Christian African and black diasporic spirituality and performance. Ultimately, *Speaking in Tongues and Dancing Diaspora* provides a

deeply felt reflection on race and gender and their effects within the discourses of speaker listener and audience performer
