Ecological Studies on the Potato Psyllid as a Pest of Potatoes Robert L. Wallis, 1955 *The Visitation of God* Austin Bourke, 1993-01-01 The dramatic failure of the potato crop in mid 19th century Europe caused widespread hunger and distress In Ireland the impact was probably the greatest where a million people died and many more emigrated In this book Austin Bourke seeks to explain how from being welcomed originally as a protection against hunger the potato became the very emblem of famine The text brings together the author's papers, essays and research spanning a 30 year period It places the onset of potato blight in its European and American context and reconsiders the role of English ministers and their attempt to stem the disaster The Potato William Stuart, 1927 **The History and Social Influence of the Potato** Redcliffe N.
