## Trading The Future:

**Trading Futures** Filipe Maia, 2022-09-06 The discourse of financialized capitalism tries to create a future predictable enough to manage risk for the wealthy to shape the future into a profit making site that constrains and privatizes the sense of what's possible Here people's hopes and meaning making energies are policed through the burden of debt In Trading Futures Filipe Maia offers a theological reflection on hope and the future calling for escape routes from the debt economy Drawing on Marxism continental philosophy and Latin American liberation theology Maia provides a critical portrayal of financialization as a death dealing mechanism that colonizes the future in its own image Maia elaborates a Christian eschatology of liberation that offers a subversive mode of imagining future possibilities He shows how the Christian vocabulary of hope can offer a way to critique the hegemony of financialized capitalism propelling us in the direction of a just future that financial discourse cannot manage or control
