Genuine Pretending Hans-Georg Moeller, Paul J. D'Ambrosio, 2017-10-17

Genuine Pretending is an innovative and comprehensive new reading of the Zhuangzi that highlights the critical and therapeutic functions of satire and humor Hans Georg Moeller and Paul J D Ambrosio show how this Daoist classic contrary to contemporary philosophical readings distances itself from the pursuit of authenticity and subverts the dominant Confucianism of its time through satirical allegories and ironical reflections With humor and parody the Zhuangzi exposes the Confucian demand to commit to socially constructed norms as pretense and hypocrisy The Confucian pursuit of sincerity establishes exemplary models that one is supposed to emulate In contrast the Zhuangzi parodies such venerated representations of wisdom and deconstructs the very notion of sagehood Instead it urges a playful skillful and unattached engagement with socially mandated duties and obligations The Zhuangzi expounds the Daoist art of what Moeller and D Ambrosio call genuine pretending the paradoxical skill of not only surviving but thriving by enacting social roles without being tricked into submitting to them or letting them define one s identity A provocative rereading of a Chinese philosophical classic *Genuine Pretending* also suggests the value of a Daoist outlook today as a way of seeking existential sanity in an age of mass media s paradoxical quest for originality

Taiwanese Perceptions of Humor Zhaozhi Liao, 2001 [Humour in Asian Cultures](#) Jessica Milner Davis, 2022-06-30

This innovative book traces the impact of tradition on modern humour across several Asian countries and their cultures. Using examples from Japan, Korea, Indonesia, and Chinese cultures in Mainland China, Hong Kong, and Taiwan, the contributors explore the different cultural rules for creating and sharing humour. Humour can be a powerful lubricant when correctly interpreted; misinterpreted, it is likely to cause considerable setbacks. Over time, it has emerged and submerged in different periods and different forms in all these countries, but today's conventions still reflect traditional attitudes to and assumptions about what is appropriate in creating and using humour. Under close examination, Milner Davis and her colleagues show how forms and conventions that differ from those in the west can also be seen to possess elements in common. With examples including Mencian and other classical texts, Balinese traditional verbal humour, Korean and Taiwanese workplace humour, Japanese laughter ceremonies, performances, and cartoons, as well as contemporary Chinese language films and videos, they engage with a wide range of forms and traditions. This fascinating collection of studies will be of great interest to students and scholars of many Asian cultures and also to those with a broader interest in humour studies. It highlights the increasing importance of understanding a wider range of cultural values in the present era of globalized communication and the importance of reliable studies of why and how cultures that are geographically related differ in their traditional uses of and assumptions about humour.
