## **Trainees Companion To General Practice:**

The Trainee's Companion to General Practice Joe Rosenthal, Jeannette Naish, 1994 There are c1800 CP trainees per year in the UK This book spans the time from leaving hospital practice to taking the MRCGP This book will be of value to the trainee throughout their traineeship not just as an exam aid It is a companion for doctors who are new to general practice and explores the basic principles of general practice thus providing a framework upon which to build during the trainee period and beyond

The Oxford Medical Companion John Nicholas Walton, Jeremiah A. Barondess, Stephen Lock, 1994 This rich intelligent guide to the state of medical science is a thoroughly revised and edited version of Walton's massive Oxford Companion to Medicine Accessible convenient and up to date it is an invaluable reference for doctors students and medical professionals of all kinds 70 halftones and line drawings

*A Career Companion to Becoming a GP* Patrick Hutt, Sophie Park, 2018-08-08 How many general practitioners ended up in their roles thanks to a faint breeze nudging them in a given direction How many successes resulted from failure Some of the most successful practices were built up from nothing and some of the happiest doctors spent time not being doctors Despite the element that fate plays in career paths it is prudent to make plans A career in general practice offers many options for further professional development While some GPs prefer to concentrate primarily on their practice others find additional fulfillment in teaching research or international collaboration Whichever path you choose general practice promises a rewarding and exciting experience This inspiring new book emphasises there is no single career path in general practice Without being prescriptive its practical approach helps you make life changing decisions prompts self analysis and equips you with the tools to remain flexible positive and reflective about your career So have you got what it takes to practise the medicine plus which is today's general practice This book written and edited by colleagues many of whom have far more street cred than I will help you decide If you have I wish you luck fulfilment and the gratification that comes from being a catalyst for good in the lives of your fellow human beings If you have a role teaching and mentoring the next generation of GPs you will find this book a persuasive ally But if you decide that hospital medicine is your preferred option well that's fine There would be no shame if you find the ladder to general practice too steep in settling for becoming a brain surgeon Roger Neighbour in the Foreword Lively extremely informative and engaging Professor Roger Jones Editor British Journal of General Practice

**The Good GP Training Guide** Matt Burkes, Alec Logan, 2014-06-02 The Good GP Training Guide is a travel guide style book for trainees in general practice Written by over a hundred contributors assembled from five continents it includes contributions from leading writers in primary care It is written in an accessible style with down to earth tips and anecdotes sometimes irreverent from real life There is an emphasis on the reality of general practice It also contains humorous or touching vignettes with accompanying linocut artwork from the Red Roses exhibition The book's first section covers hospital placements It is intended to show trainees how to get the most out of their training posts Beginning with basic information on behaviour required in the

hospital setting there are chapters looking at cardiology ophthalmology rheumatology etc These chapters are split up into handy lists covering the basics tips on patients and PDP pointers The second section covers GP rotations It gives information on passing the various RCGP exams as well as realistic advice on other facets of general practice The third section looks at finding a job and making the transition to an independent practitioner Options for broadening a doctor's career are looked here with chapters on event medicine academia teaching etc There is information on how stay out of trouble and how to use social media safely and without running foul of the GMC The book offers the ultimate guide to the training process It covers the entire training experience and the practicalities of what comes after *BMJ*,1994

**General Practice Cases at a Glance** Carol Cooper,Martin Block,2016-07-12 General Practice Cases at a Glance is a workbook of clinical scenarios ideal for those working in general practice on their GP rotations or looking to improve their history taking diagnostic and management planning skills Written by practising teaching GPs it provides an accessible overview of the richness and complexity of general practice With 50 engaging consultations covering all age ranges and a broad spread of clinical areas each symptom based chapter begins with the clinical presentation of a patient before going on to uncover the full history and examination As you work through each true to life case there are red flag symptoms useful charts and tables and further resources to deepen your knowledge General Practice Cases at a Glance Is suitable for clinical students Foundation doctors and those preparing for the MRCGP's CSA Includes 50 case scenarios from across the medical spectrum from mental health and paediatrics to musculoskeletal and ENT medicine Is comprehensively illustrated Features current clinical guidelines and charts and tables to accompany each case Is the companion volume to General Practice at a Glance ISBN 978 0 470 65551 1 Awarded First Prize in the Primary health care category at the 2013 BMA Medical Book Awards but is also a stand alone resource

Training for General Practice Denis J. Pereira Gray,1982

**A Guide for Trainees in General Practice** John Fry,1989-01-01 This guide outlines the various aspects and problems of general practice and shows the best way to train for them It brings in the wider context of the NHS and the GP as an employer within it *FAMLI*,1990

**Companion to Psychiatric Studies** Robert Evan Kendell,Andrew K. Zealley,1993 This text has been designed as a general textbook for postgraduate students of psychiatry The main emphasis of the book is on the phenomenon of psychiatric illness and above all on treatment Topics covered include organic disorders suicide personality development and rehabilitation Science and Health Mary Baker Eddy,1991-04 First published in 1875 and read by more than eight million people this nondenominational book has a 119 year history of healing and inspiration To attract a new audience this time honored message of healing has a powerful new cover easy to read page layout and word index Named one of 75 Books by Women Whose Words Have Changed the World

**Monthly Catalog of United States Government Publications**,1964 *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004

**The Cumulative Book Index**,1995 A world list of books in the English language

**Medical Malpractice: Understanding The Law, Managing The Risk** Siang-yong Tan,2006-01-23 This textbook is

about the law of medical malpractice and how to prevent a malpractice lawsuit It grew out of an earlier book covering medical negligence in Singapore The book s primary goal is to provide a clear and simple explanation of the American law of medical malpractice informed consent and risk management Written with the clinician in mind it is legally uncomplicated without being overly simplistic The book is as much about medicine as it is about law above all it is about patients It is written with the fervent belief that with better education there will emerge a better appreciation of the expectations of the patient often unmet and the standards of the legal system often misunderstood Fewer lawsuits and improved patient care will hopefully follow The book is in five sections The first covers the law of malpractice and informed consent while the second covers risk management with chapters on confidentiality communication and risk management tips Section III is a single chapter on reforming the system and discusses both medical and legal proposals The subject of tort reforms is covered in this chapter A review section consisting of 35 multiple choice questions and answers constitutes Section IV The book concludes with a glossary of legal terms

**The Journal of the Royal College of General Practitioners** ,1984    **The British National Bibliography** Arthur James Wells,2009    **Information Sources in the Medical Sciences** Leslie Thomas Morton,S. Godbolt,1992    **GMED Companion** American Medical Association,2003 Features additional data on 4 100 specialty programs such as salary start dates hours of duty per week and curricula displayed in a grid format for easy comparison between programs Also includes articles on obtaining a residency international medical graduates and growth of specialization in GME as well as medical education data tables and lists of women s health residency fellowship programs hospitalist programs and GME programs in Canada    **The Medical Journal of Australia** ,1993
