## **World Slicker:**

Exiting the Global Economic Superhighway Hideki Kato,2023-11-27 This book tackles global economic and social issues from a perspective that may seem obvious but which no author has yet taken that we humans are living beings In today s artificially globalized world we have increasingly lost sight of our original humanity Despite the serious environmental social and political problems we are facing we cannot stop focusing on economic growth efficiency and liberalization In doing so we continue to make the world slicker and more unstable This book identifies these conventional values and ways of thinking as the root cause underlying many of today s challenges and it offers the perspective of a bumpier and more organic human existence that provides a greater sense of traction and stability The book begins with a discussion of global systems and structures proposing a world with two systems to limit the effects of artificially constructed globalization The second part examines the modern welfare state outlining a process to revive democracy and social capital by making social issues the business of everyday citizens The third and final part focuses on human well being emphasizing physicality and the Japanese concept of kata as keys to restoring our humanity Rather than searching for specific solutions through specialized knowledge this book makes use of the author s broad perspective acquired through many years of public policy research and reform It asserts that knowledge should be acquired through hands on experience and in studies based on real world situations involving people at the forefront of society s challenges whether politicians businesspeople scientists craftspeople or farmers In both its analysis of humanity s problems and the solutions it offers this book takes an entirely new yet utterly natural approach to steering humanity off the global economic superhighway Swine World ,1930 Catholic World ,1930
