Latter-Day Political Views Jeffrey C. Fox,2006-05-19 *Latter Day Political Views* is a formal study of the effect of religion and culture on the political worldviews of practicing Mormons from different races and nationalities Previous studies have focused on Mormons in Utah and found phenomenally high levels of homogeneity in LDS political views so much so that Mormons have been considered a distinct ethnic group What author Jeffrey Fox finds shatters this illusion Here he illuminates how people with different backgrounds are able to not only reconcile various clashing cultural beliefs with Mormon doctrine but also form their own unique political views that differ systematically by race and political culture As the church rapidly expands and becomes more racially and culturally diverse *Latter Day Political Views* encourages readers to expand their field of vision and understand the impact of Mormon doctrine on the political thought of all its members
