Charles Darwin In Cambridge: The Most Joyful Years John Van Wyhe, 2014-05-27 Charles Darwin's years as a student at the University of Cambridge were some of the most important and formative of his life. Thereafter he always felt a particular affection for Cambridge. For a time he even considered a Cambridge professorship as a career and sent three of his sons there to be educated. Unfortunately the remaining traces of what Darwin actually did and experienced in Cambridge have long remained undiscovered. Consequently his day to day life there has remained unknown and misunderstood. This book is based on new research including newly discovered manuscripts and Darwin publications and gathers together recollections of those who knew Darwin as a student. This book therefore reveals Darwin's time in Cambridge in unprecedented detail.

Teaching the Discipline of History in an Age of Standards Jennifer Clark, Adele Nye, 2018-06-08 This book discusses the discipline standards of History in Australian universities in order to help historians understand the Threshold Learning Outcomes and to assist in their practical application. It is divided into two sections. The first offers a scholarly exploration of contemporary issues in history teaching while the second section discusses each of the Threshold Learning Outcomes and provides real world examples of quality pedagogical practice. Although the book focuses on the discipline of history in Australia, other subjects and other countries are facing the same dilemmas. As such it includes chapters that address the international context and bring an international perspective to the engagement with discipline standards. The innovation and leadership of this scholarly community represents a new stage in the transformation and renewal of history teaching.
