## **Unity And Diversity In Language Use:**

**Unity and Diversity in Language Use** Kristyan Miller, Paul Thompson, 2005-11-23 The papers in this collection drawn from the 34th Annual Conference of the British Association for Applied Linguistics reflect a number of different perspectives within the field of applied linguistics at the start of the twenty first century While addressing the theme of unity and diversity each paper prompts critical reflection on tensions within the discipline between stability and change consensus and controversy similarity and variation The interpretation of language use is broad and varied taking both macro and micro perspectives Topics addressed range from issues of global communication in a world of shifting demographics and technological advances to analyses of specific contexts of interaction both professional and personal Contexts of language use frequently coincide with settings of language acquisition both within and beyond the language classroom and this opens up discussion of the focus scope and appropriateness of research stances in applied linguistics and practices in language pedagogy Furthermore variation is considered from a number of social cultural gender related linguistic and discourse perspectives calling into question terminology definitions and the nature of evidence at the heart of applied linguistic theory and practice

**Intercultural Language Use and Language Learning** Eva Alcon Soler, Maria Pilar Safont Jorda, 2007-05-24 Eva Alcon Soler Maria Pilar Safont Jord Universitat Jaume I Spain The main purpose of the present book is to broaden the scope of research on the development of intercultural communicative competence Bearing this purpose in mind English learners are considered as intercultural speakers who share their interest for engaging in real life communication According to Byram and Fleming 1998 the intercultural speaker is someone with knowledge of one or more cultures and social identities and who enjoys discovering and maintaining relationships with people from other cultural backgrounds although s he has not been formally trained for that purpose Besides possessing knowledge of at least two cultures is the case of many learners in bilingual or multilingual communities In these contexts the objective of language learning should then focus on developing intercultural competence which in turn may involve promoting language diversity while encouraging English as both a means and an end of instruction see Alcon Soler in this volume This is the idea underlying the volume which further sustains Kramsch's argument 1998 against the native non native dichotomy Following that author we also believe that in a multilingual world where learners may belong to more than one speech community their main goal is not to become a native speaker of English but to use this language as a tool for interaction among many other languages and cultures

the challenges of ethnic diversity within the context of a federal arrangement It examines how a federal arrangement has been used to reconcile the conflicting pressures of the demand for the recognition of distinctive identities on the one hand and the promotion of political and territorial integrity on the other Comparative case studies of South Africa and Ethiopia as the two federal systems provide a contrasting approach to issues of ethnic diversity Suggesting new ways in which federalism might work the author identifies key institutions lessons which will help to build an all inclusive society
