The Future Evolution Of Man:

The Future Evolution of Man Aurobindo Ghose, Sri Aurobindo, 1971 *The Future Evolution of Man* Aurobindo Ghose, 1963 **The Future Evolution of Man** Aurobindo, 1963 Harmsworth History of the World Arthur Mee, 1907

A Scientific Demonstration of the Future Life Thomson Jay Hudson, 1895 System of positive polity: Theory of the future of man, with an appendix consisting of early essays on social philosophy Auguste Comte, 1877 *The Future Affects the Past* Tonnerre, 2013-06-04

Music and nature inspire my writings so I traveled extensively during the writing process of this book I began writing this philosophy treatise at the heart of America by the banks of the Missouri River where I used to drown myself in the magnificent music of the wilderness when I went on my evening walks I would stroll solo in the woods and emerge to rest on a bench facing an ocean blue sky and abysmal thoughts would come to me of their own accord like d j vus There I would sit and sup on the cool evening breeze and witness our great golden star fall behind the distant red horizon like a sinking ship and the beatific and tragic sight of that dying day would fill me up with emotions In that solitude where a person hears their own thoughts speak loudest I would give into a deep ocean of contemplation and examine the nature of the world like a tyrant beholding an atlas of the world I would ask myself deep philosophical questions like if a seed growing into a tree and a tree growing into a forest is only a brief moment in the history of time then how much shorter is my life in this world And if earth is only a dust particle floating in the desert of space then how infinitesimal am I in the infinite infinities and diversities of nature Who or what put me in this island called earth Am I just another artifact in the museum of the universe or am I something higher than a flower or a bird or a crystal I would compile thoughts until my thoughts thoughts reach the limit and my mind nearly faints from exhaustion I read nature and wrote at the park until the moon rose and stars arrived to light up the heaven like an army of glowing fireflies Portions of the book were written by the snowy mountain tops of Utah and at the beaches of Lake Michigan whose pure blue water ebbs away and flows towards the windy metropolis of Chicago I then traveled abroad to Africa to collect and recollect my thoughts in the primordial Garden of Eden in South Sudan with its billions of birds animals and insect s chirping buzzing squealing screaming and singing in the orchestra of life playing in the theatre of Nature I meditated and contemplated about life by the shores of Lake Victoria which reflects the white clouds of Uganda s clear sky in its surface like a gigantic mirror on the ground Then I went on an intellectual mecca to Europe visiting intellectualistic sites like the British Library where Marx wrote the most consequential book of modernity I also went to the British Museum and Oxford University to affirm and confirm the contents of this discourse The book was actually edited in London It is called *The Future Affects The Past* because the subject of d j vu is the object the other subjects of the book revolve around It was premeditated by fate before I was even born that I would script this book Prior to taking my first breath of life before my heart beat for the first time in this world I already wrote this book and it was a matter of time before destiny made it occur into actuality Wisely so I do not call this book my own because I

know that infinity is its source just like the infinitely ancient and creative Nature is the source of all arts and inventions Nature had copyright on all things This book is an avalanche of past and present knowledge it s a culmination of precedent human wisdom it s a synthesis of the insights of many books and many minds I am just a instrument used by greater Nature Nature is a tremendous bow that shoots arrows from infinite distance away and infinite time ago and I am only one of Nature s arrows of fire who live to illuminate the dark world of ignorance with philosophical knowledge

Teilhard and the Future of Humanity Thierry Meynard,2006 Fifty years after his death the thought of the French scientist and Jesuit Pierre Teilhard de Chardin 1881 1955 continues to inspire new ways of understanding humanity s future Trained as a paleontologist and philosopher Teilhard was an innovative synthesizer of science and religion developing an idea of evolution as an unfolding of material and mental worlds into an integrated holistic universe at what he called the Omega Point His books such as the bestselling *The Phenomenon of Man* have influenced generations of ecologists environmentalists planners and others concerned with the fate of the earth This book brings together original essays by leading experts who reflect on Teilhard s legacy for today s globalized world They explore such topics as the idea of God and the person quantum reality and Teilhard s vision spiritual resources for the future politics and economics and a charter for co evolution

The Spiritual Origins of Eastern Europe and the Future Mysteries of the Holy Grail Sergei O. Prokofieff,1993 And however paradoxical it may seem today the Grail mood is in the fullest sense to be found in Russia And the future role that Russia will play in the sixth post Atlantean epoch a task of which I have so often had to speak rests firmly upon this unconquerable Grail mood in the Russian people Rudolf Steiner Nov 3 1918 Although Eastern Europe has been part of Christian humanity for more than a thousand years its task and spiritual identity remain a mystery the answer to which cannot be found unless we look behind outer historical events to the spiritual meta historical dimensions of history This momentous work breathtaking in its scope and detail represents just such a penetrating esoteric study of Eastern Europe in the light of Rudolf Steiner s spiritual research Prokofieff shows how from the earliest times the future conscience of humanity flowed from hidden mystery centers in Hibernia to the eastern Slavic peoples As a result qualities of compassion patience and willingness for sacrifice developed in

their souls creating a truly Christian Grail mood Despite incalculable suffering from the persecutions by the Mogul hordes of the thirteenth century to the Bolshevik experiment of the twentieth century this quality has become an unconquerable force in the depths of their being In illuminating the maya of outer history Prokofieff reveals the forces that have been at work to hinder the progress and future intentions of humankind Those adversarial forces have created a karma of materialism that the eastern Slavic peoples have taken upon themselves out of their exalted willingness for sacrifice Will we be able to use the present opportunity granted by this sacrifice to fulfill the primary purposes of the present cultural epoch Serious study of this book intended for students of spiritual science can lead to a profound awakening to the challenges that face humankind today
