[Building to Benefit the Environment](#), 2009

**Green Building in Developing Countries** Zhonghua Gou, 2019-07-30 The book reveals how green buildings are currently being adapted and applied in developing countries It includes the major developing countries such as China Indonesia Malaysia Thailand Pakistan Cambodia Ghana Nigeria and countries from the Middle East and gathers the insights of respected green building researchers from these areas to map out the developing world s green building revolution The book highlights these countries contribution to tackling climate change emphasising the green building benefits and the research behind them The contributing authors explore how the green building revolution has spread to developing countries and how national governments have initiated their own green building

policies and agendas They also explore how the market has echoed the green building policy and how a business case for green buildings has been established In turn they show how an international set of green building standards in the form of various techniques and tools has been incorporated into local building and construction practices In closing they demonstrate how the developing world is emerging as a key player for addressing the energy and environmental problems currently facing the world The book helps developers designers and policy makers in governments and green building stakeholders to make better decisions on the basis of global and local conditions It is also of interest to engineers designers facility managers and researchers as it provides a holistic picture of how the industry is responding to the worldwide call for greener and more sustainable buildings

The Building News and Engineering Journal ,1873

**How Green is Your City?** Warren Karlenzig, Frank Marquardt, 2007 In our peak oil post Katrina world how do America s largest cities stack up in terms of sustainability Which cities are more self sufficient and better prepared for our uncertain future and which cities are operating business as usual How Green is Your City examines the outcome of a sustainability study of the 50 largest U S cities compiled by SustainLane The 2006 SustainLane US Cities Rankings employed 15 standards to measure each city s performance and ranked them overall according to the cumulative results Among those standards Public transit use Air and tap water quality Planning land use City innovation Affordability Energy climate change policy Local food agriculture Green economy Sustainability management Leading the pack is Portland Oregon with its high quality of life and commitment to green building local food alternative fuels and renewable energy while Columbus Ohio with its dependence on the automobile and poor public transit ranks at the bottom How Green is Your City offers an in depth analysis of each city s management policies strengths and challenges as well as the emerging job and tax base expansion opportunities with the growth of clean technologies How Green is Your City will appeal to city planners legislators green businesses as well as anyone interested in their quality of life and making their city a more sustainable place SustainLane us was designed as an online open source knowledge base devoted to government officials while Sustainlane com is for reviews in the green and healthy product market Author Warren Karlenzig along with Frank Marquardt Paula White Rachel Yaseen and Richard Young of SustainLane com contributed to this project
