Intentional Way to Work The Busy Professional's Guide to Digital Minimalism is about designing a digital life that supports your goals instead of competing with them. With simple habits and thoughtful systems, you can create a calmer, more focused, more intentional way of working, one that leaves you with more energy for the things that matter most. If you'd like, I can also create a full table of contents, chapter summaries, habit templates, or a companion workbook to pair with this introduction.

Get Organized Digitally! Frank Buck, 2021-12-28. In today's world, we're often overwhelmed by our digital devices and the volume of available digital information. Get Organized Digitally outlines a complete digital organizational system for the busy educator and helps you harness the power of technology to save time. This book is your go-to source, presenting the nuts and bolts of exactly how to make technology work for you in both your personal and professional life. Special features of Get Organized Digitally include: Details of how to get started with the best digital organizational tools available today; Principles of digital organization that make all the components of your system work together; Stories that inspire and show how technology can make our lives easier; Time is the most precious resource we have; managing it well leads to greater productivity and less stress; Get Organized Digitally shows educators how to harness the power of technology to spend time on what matters most: your school and your students.

Discover The Path To Self Improvement, 2023-02-07. Niche is your itch. It is finding a specific area of interest or expertise that satisfies a personal desire or passion. Every one of us has to convey that niche should be something that one is personally motivated to explore, learn, and develop. A niche is of vital importance because it penetrates through a market segment or a specific aspect of a larger industry. For example, someone may have a niche in rare books of a specific category or alternative readings of related topics. The key to finding a successful niche is to identify something important and meaningful to exercise and develop skills and knowledge in that area. Having a personal interest in your niche can motivate and engage a specified segment of individuals and help them face some of the challenges and obstacles. When you are passionate about your work, you are more likely to put in the time and effort needed to become an expert and to continue learning and growing in that area. Working on the niche for a better cause encourages individuals to find their unique area of focus, create a fulfilling and successful career or personal project, and make a positive impact on others through your work. As a self-help book lover for decades, I was able to write a few books and gain considerable experience in a different genre. I was greatly inspired to resolve the issues through writing and had a great passion for motivating others for their fruitful journey. I'm proud to present my latest creation to help and discover the niches in the self-improvement books. This book is designed for both new and established authors who are looking to find their place in the self-help genre. I understand the struggles of selecting the right niche and reaching the target audience. That's why I've put together this comprehensive guide to help authors make the right choices. With the top twenty existing titles compared across broad niches, you'll be able to see how your work stacks up against the best in the business. And with ten micro-niches explained in detail and over 1000 templates for book titles, you'll never run out of inspiration. This book is your ultimate guide.
