INTERMITTENT DIET FOR WOMEN OVER 50 Gillian Keys Pomroy,Anna Bernardi,2021-04-22 55% discount for bookstores NOW AT 41 99 INSTEAD OF 51 99 Intermittent fasting isn t it hungry No Fasting differs from hunger in one crucial way control Hunger is the involuntary absence of food for a long time On the other hand fasting is the voluntary avoidance of food for spiritual health or other reasons If done correctly fasting should not cause suffering and certainly not serious harm Food is readily available but choose not to eat it This can be for any length of time from a few hours to a few days or with medical supervision even a week or more You can start a fast at any time of your choosing and you can also end a fast at your leisure Whenever you don t eat you fast intermittently For example you can fast between dinner and breakfast the next day for a period of about 12 14 hours In this sense intermittent fasting should be considered a part of daily life It is perhaps the oldest and most powerful dietary intervention imaginable Consider the term quick break This refers to the fast breaking meal which is done daily Rather than being some kind of cruel and unusual punishment the English language implicitly acknowledges that fasting should be performed daily even if only for a short duration Intermittent fasting is not something unusual but it is part of everyday and normal life Yet somehow we have lost its power and neglected its therapeutic potential Learning to fast properly gives us the ability to use it or not If you have ever felt negatively towards your body or feed habits and you re over 50 then keep reading It is essential for women as they approach middle age to start exercising necessary precautions with their health This is the time where women become at risk for contracting diseases like type 2 diabetes heart disease cancer and high blood pressure to name a few From this age women need to pay considerable attention to what and how they eat Healthy eating habits lower the risk of illness reduce middle age spread and slow down the signs of aging As a person ages they undergo certain phases of life where changes take place We go from infant to
