## **Taking A Line For A Walk:**

**Taking a Line for a Walk** Martin Wiener, 1985 Martin Wiener's drawings make one aware at all times of that tension between what a line is doing and what it is describing. He plays with this idea constantly but it is especially clear in his series of autographs where the line teases the viewer by its many functions. One moment it is a line in its role as a written language next it is a line as line but it is also a portrait of the person whose signature it is. Still further it is not a portrait as likeness only but refers to characteristic attributes of the subject. An artist whose work is often witty and delightful he sometimes also provokes strong reactions. Agitators threw a bomb into a gallery hosting an exhibition of his works in 1984. *Ways of Walking* Tim Ingold, Jo Lee Vergunst, 2008 This exciting new volume focuses on how humans inhabit their environment considering techniques of the body and walking behaviours to better understand the variety of embodied meanings. Its original collection of work has contributions from anthropologists sociologists geographers and specialists in education and architecture offering a broad readership of new innovative and previously overlooked ideas. [Take a Line for a Walk](#) Marion Deuchars, 2025-09-23 Inspired by artist Paul Klee's quote "A drawing is simply a line going for a walk" this artful activity book is packed with playful ways to start a drawing. **Signergy** C. J. Conradie, Ronèl Johl, Marthinus Beukes, 2010 The title of this volume strives to capture the dynamic scope and range of the essays it contains applying insights into the workings of iconicity to texts as far removed from each other in time as the Medieval tale of a bishop fish and the war poems of 20th century Italian Futurist F. T. Marinetti and as thematically diverse as the Pilgrim's Progress and the poetry of e. e. cummings. Applications reference both language and linguistics as well as literature and literary theory and related fields such as sign language and translation the former approached from the point of view of Japan Sign Language the latter with reference to translations of the Koran and the Sesotho Bible as well as modern German and English Bible translations. On the language side the intricate relationships between sound symbolism and etymology and between analogy and grammaticalization are examined in depth. On the literary side the iconic effects of techniques such as enjambment and metrical inversion are considered but also the ways in which an understanding of iconicity can open up meanings in complex poetry like that of the Afrikaans poet T. T. Cloete in this particular instance three poems inspired by figures as diverse as Dante Paul Klee and the pop icon Marilyn Monroe. In view of the fact that form is able to mime meaning and meaning itself can be mimed by meaning the theoretical question is asked on the basis of a wide range of examples from literature language music and other sign systems whether meaning can also mime form. An introduction to the work of H. C. T. Muller an early scholar in the field of iconicity highlights a regrettably little known South African contribution to the development of iconicity theory. **Foundations of Creative Work** G. N. Kamau, 1988 **Harrison Birtwistle Studies** David Beard, Kenneth Gloag, Nicholas Jones, 2015-04-09 This collection of essays celebrates the work of Sir Harrison Birtwistle one of the key figures in European contemporary music. Representing current research on Birtwistle's music this book reflects the diversity

of his work in terms of periods genres forms techniques and related issues through a wide range of critical theoretical and analytical interpretations and perspectives Written by a team of international scholars all of whom bring a deep research based knowledge and insight to their chosen study this collection extends the scholarly understanding of Birtwistle through new engagements with the man and the music The contributors provide detailed studies of Birtwistle s engagement with electronic music in the 1960s and 1970s and develop theoretical explanations of his fascination with pulse rhythm and time They also explore in detail Birtwistle s interest in poetry instrumental drama gesture procession and landscape and consider the compositional processes that underpin these issues
