Kati's Story Catherine Veres, 2009 Based on a decade of taped conversations between Kati Catherine Veres and her son Peter Veres KATI'S STORY RECOLLECTIONS OF TWO WORLDS is the multigenerational story of a Jewish family It takes us from mid nineteenth century villages in Hungary during the Austro Hungarian Empire to cosmopolitan Budapest before during and after World War II and finally to post war New York City It is also the story of a culture that transformed from tolerant to virulently intolerant in a single generation Kati's father served as an officer in the Hungarian army during WWI but was deported and killed during WWII Sensing the coming disaster Kati went to England to give birth to her first child hoping that a British birth certificate would protect him against anti-Semitism She returned to Budapest to be with her ailing parents survived the war and its aftermath with her husband and two sons and found a way to immigrate to New York to be near her brother Gabor Carelli who became a principal soloist at the Metropolitan Opera Company In her new world she built on her sewing skills to become an assistant dress designer of high end bridal gowns in the then vigorous New York garment industry and later a pattern maker at Simplicity Patterns Augmenting Kati's story is a large selection of family photographs and official documents many in color dating back to the mid nineteenth century which remarkably survived the war and emigration in excellent condition Also included are several color maps indicating places mentioned in the text family trees and footnotes about historical and geographical details The Menorah Journal , 1922 **Europe's Languages on England's Stages, 1590-1620** Marianne Montgomery, 2016-04-22 Though representations of alien languages on the early modern stage have usually been read as mocking xenophobic or at the very least extremely anxious listening closely to these languages in the drama of Shakespeare and his contemporaries Marianne Montgomery discerns a more complex reality She argues instead that the drama of the early modern period holds up linguistic variety as a source of strength and offers playgoers a cosmopolitan engagement with the foreign that while still sometimes anxious complicates easy national distinctions The study surveys six of the European languages heard on London's commercial stages during the three decades between 1590 and 1620 Welsh French Dutch Spanish Irish and Latin and the distinct sets of cultural issues that they made audible Exploring issues of culture and performance raised by representations of European languages on the stage this book joins and advances two critical conversations on early modern drama It both works to recover English relations with alien cultures in the period by looking at how such encounters were staged and treats sound and performance as essential to understanding what Europe's languages meant in the theater Europe's Languages on England's Stages 1590-1620 contributes to our emerging sense of how local identities and global knowledge in early modern England were necessarily shaped by encounters with nearby lands particularly encounters staged for aural consumption Talks with Old English
