A New Philosophy of Modernity and Sovereignty Przemyslaw Tacik,2021-07-29 Tackling important philosophical questions on modernity what it is where it begins and when it ends Przemyslaw Tacik challenges the idea that modernity marks a particular epoch and historicises its conception to offer a radical critique of it His deconstruction informed critique collects and assesses reflections on modernity from major philosophers including Hegel Heidegger Lacan Arendt Agamben and i ek This analysis progresses a new understanding of modernity intrinsically connected to the growth of sovereignty as an organising principle of contemporary life He argues that it is the idea of modernity as a taken for granted era which is positioned as the essential condition for making linear history possible when it should instead be history in and of itself which dictates the existence of a particular period Using Hegel s notion of spirit to trace the importance of sovereignty to the conception of the modern epoch within German idealism Tacik traces Hegel s influence on Heidegger through reference to the star in his late philosophy which represents the hope of overcoming the metaphysical poverty of modernity This line of thought reveals the necessity of a paradigm shift in our understanding of modernity that speaks to contemporary continental philosophy theories of modernity political theory and critical re assessments of Marxism
