Addiction and Responsibility Jeffrey Poland, George Graham, 2011-05-13 The intertwining of addiction and responsibility in personal philosophical legal research and clinical contexts Addictive behavior threatens not just the addict s happiness and health but also the welfare and well being of others It represents a loss of self control and a variety of other cognitive impairments and behavioral deficits An addict may say I couldn t help myself But questions arise are we responsible for our addictions And what responsibilities do others have to help us This volume offers a range of perspectives on addiction and responsibility and how the two are bound together Distinguished contributors from theorists to clinicians from neuroscientists and psychologists to philosophers and legal scholars discuss these questions in essays using a variety of conceptual and investigative tools Some contributors offer models of addiction related phenomena including theories of incentive sensitization ego depletion and pathological affect others address such traditional philosophical questions as free will and agency mind body and other minds Two essays written by scholars who were themselves addicts attempt to integrate first person phenomenological accounts with the third person perspective of the sciences Contributors distinguish among moral responsibility legal responsibility and the ethical responsibility of clinicians and researchers Taken together the essays offer a forceful argument that we cannot fully understand addiction if we do not also understand responsibility

Gresham, John Milton, Jean Bodin, Benjamin Franklin, Gottfried Wilhelm Leibniz, George Washington, 2015-09-04 Do You Know What the American System Of Economics is All About Most Americans actually don't and it's not because they are actually stupid It's because there's been a systematic suppression of the truth to the point where it's been written out of the history books and schools throughout the nation The Political Economy of the American Revolution was first published in 1977 in order to revive the truth about American history Newspaper editor Nancy Spannaus and historian Christopher White assembled the crucial writings which defined the American System as a continuation of the Italian Golden Renaissance tradition and a war against British imperialism and free trade They produced a book of readings which served as an assault on the Treason School of American history This new edition adds some crucial materials but its guts are the same the works of Alexander Hamilton and his French predecessor Jean Baptiste Colbert These are writings you either can't find anywhere else or which are hard to find They are supplemented by introductory essays by Spannaus and White The scholar and the conscientious citizen will find this book indispensable The American war against British imperialist methods continues today and must be won
