lifetime But the differences are also profound the spectrum of philosophical expression among these American Buddhist schools is as varied as that observed between Reformed Orthodox and Hasidic Judaism The Star Spangled Buddhist isn't written from the perspective of a monk or academic but rather from the view of author Jeff Ourvan a lifelong practicing lay Buddhist As Ourvan explores the American Buddhist movement through its most popular schools he arrives at a clearer understanding for himself and the reader about what it means to be and how one might choose to be a Buddhist in America

social self theories of modern Japanese philosophy and American pragmatism with respect to such problems as individualism versus collectivism freedom versus determinism liberalism versus communitarianism and relativism versus objectivism
