The Ritual:

The Ritual Process Victor Turner, Roger Abrahams, Alfred Harris, 2017-07-05 In *The Ritual Process Structure and Anti Structure* Victor Turner examines rituals of the Ndembu in Zambia and develops his now famous concept of *Communitas*. He characterizes it as an absolute inter human relation beyond any form of structure. *The Ritual Process* has acquired the status of a small classic since these lectures were first published in 1969. Turner demonstrates how the analysis of ritual behavior and symbolism may be used as a key to understanding social structure and processes. He extends Van Gennep's notion of the liminal phase of rites of passage to a more general level and applies it to gain understanding of a wide range of social phenomena. Once thought to be the vestigial organs of social conservatism, rituals are now seen as arenas in which social change may emerge and be absorbed into social practice. As Roger Abrahams writes in his foreword to the revised edition, Turner argued from specific field data. His special eloquence resided in his ability to lay open a sub-Saharan African system of belief and practice in terms that took the reader beyond the exotic features of the group among whom he carried out his fieldwork, translating his experience into the terms of contemporary Western perceptions. Reflecting Turner's range of intellectual interests, the book emerged as exceptional and eccentric in many ways, yet it achieved its place within the intellectual world because it so successfully synthesized continental theory with the practices of ethnographic reports.

Voices of the Ritual Nurit Stadler, 2020-05-15 *Voices of the Ritual* analyzes the revival of rituals performed at female saint shrines in the Middle East, highlighting the ways in which members of minority religious groups have laid claim to space through rituals enacted at sacred spaces in the Holy Land. Using ethnographic analysis, Stadler tracks the popularity of the rituals and the themes of female materiality; they are often grounded in

Ingmar Bergman and the Rituals of Art Paisley Livingston, 2019-06-30 Through close readings of Bergman's famous and lesser-known films as well as through study of his early stage productions, untranslated essays, interviews, and scripts, Paisley Livingston elucidates Bergman's rigorous critique of the violence, persecution, and deceit in modern culture. Bergman's focal point is the dilemma of the artist in society: the nature and value of his exchanges with the public. He envisions modern art in terms of its relation to a moribund tradition in its dependence on destructive and sterile ritual patterns; art has lost the power to influence the development of our lives. Bergman criticizes the vestiges of cult values in both popular and elite forms of art, from the idolatry of the star system to the aggressive primitivism of certain avant-garde experiments. Linking his innovations in film form to an investigation of the processes of social interaction, Bergman is able to confront the artist's relation to both the order and the disorder of culture.

Music in Medieval Rituals for the End of Life Elaine Stratton Hild, 2023-12-15 Medieval documents reveal that for centuries of European history, singing for a person at the moment of death was considered to be the ideal accompaniment to a life's ending. Through investigations of four manuscripts as case studies, author Elaine Stratton Hild examines and recovers the music sung for the dying during the Middle Ages and considers the functions of the music, a lost art of comforting the
