Barset that the pavement of the city ways are familiar to my footsteps After his novels end William Thackeray wonders where his characters now live and misses their conversation How can we understand the novel as a form of artificial reality Timothy Gao proposes a history of virtual realities stemming from the imaginary worlds created by novelists like Trollope Thackeray Charlotte Bronte and Charles Dickens Departing from established historical or didactic understandings of Victorian fiction Virtual Play and the Victorian Novel recovers the period s fascination with imagined places people and facts This text provides a short history of virtual experiences in literature four studies of major novelists and an innovative approach for scholars and students to interpret realist fictions and fictional realities from before the digital age This title is also available as Open Access on Cambridge Core   <u>Influence and Intertextuality in Literary History</u> Jay Clayton,Eric Rothstein,1991 This important collection explores and clarifies two of the most contested ideas in literary theory today influence and intertextuality The study of influence tends to center on major authors and canonical works identifying prior documents as sources or contexts for a given author Intertextuality on the other hand is a concept unconcerned with authors as individuals it treats all texts as part of a network of discourse that includes culture history and social practices as well as other literary works In thirteen essays drawing on the entire spectrum of English and American literary history this volume considers the relationship between these two terms their rivalry their kinship their range of uses Debates about these two concepts have been crucial to the new historicism and the resurgence of interest in literary history The essays in this volume employ a refreshing array of examples from that history poetry of the Renaissance and the twentieth century novels of the eighteenth through twentieth centuries Old English texts and postmodernist productions that have served as recurrent intertexts for contemporary theory The contributors treat such currently vital questions as the role of the author canon formation gender causality and the social dimension of texts They illuminate old assumptions and new ideas about agency that lie behind notions of influence and they examine models of an anonymous textual field that lie behind notions of intertextuality The volume takes much of its character from its own intertextual origin as a group project of the English faculty at the University of Wisconsin Madison Though diverse in their academic interests concerns and experience the contributors particpated in an ongoing intellectual exchange that is a model of how new scholarship can arise from dialogue   □□□□ ,1993   <u>Eroticism, Ethics and Reading</u> Yvonne Martinsson,1996   *Jim Kobak's Kirkus Reviews* ,1986   *Kirkus Reviews* ,1986 Adult books are categorized by genre i e fiction mystery science fiction nonfiction Along with bibliographic information the expected date of publication and the names of literary agents for individual titles are provided Starred reviews serve several functions In the adult section they mark potential bestsellers major promotions book club selections and just very good books in the children s section they denote books of very high quality The unsigned reviews manage to be discerning and sometimes quite critical   **Postmodern Social Analysis and Criticism** John W. Murphy,1989-06-15 Although postmodernism has had clear impact on literary criticism the social and political implications of this philosophy have not been systematically investigated Murphy

s study is the first to bring a broad interdisciplinary perspective to the subject and to present postmodernism as a coherent social theory Responding with compelling arguments to critics of postmodernism Murphy develops a model that offers a viable alternative to traditional approaches to conceptualizing and studying social life In an introductory chapter Murphy looks at the differences between modernism and postmodernism and discusses the metanarratives that characterize the former He goes on to clarify key assumptions and concepts especially the postmodern opposition to the traditional Western separation of subject and object In subsequent chapters he describes the research methodology used by postmodernists their views of social ontology and the relationship between order and structure and the creation of socially responsible institutions The postmodernists reconceptualization of key aspects of cultural reality including time space reason and social relations is examined in detail Murphy concludes by exploring the political ramifications of the postmodernist model and its potential as a vehicle for building a genuinely democractic society This study will be of particular interest to philosophers economists and sociologists concerned with contemporary developments in European social philosophy It is relevant to courses or study in social theory and philosophy communication theory cultural criticism and related fields   **Russian-European Interfaces in the Northern Dimension of the EU** Helena Rytövuori-Apunen,2000   The Politics of Language and Identity in Post-Soviet Ukraine Laada Bilaniuk,1998   **Recording for the Blind & Dyslexic, ...
