The Human Tradition in America from the Colonial Era through Reconstruction Charles W. Calhoun, 2002-01-01 The Human Tradition in America from the Colonial Era through Reconstruction is a collection of the best biographical sketches from several volumes in SR Books popular Human Tradition in America Series Compiled by Series Editor Charles W Calhoun this book brings American history to life by illuminating the lives of ordinary Americans This examination of common individuals helps personalize the nation's past in a way that examining only broad concepts and forces cannot By including a wide range of people with respect to ethnicity race gender and geographic region Prof Calhoun has developed a text that highlights the diversity of the American experience

Ordinary Women, Extraordinary Lives Kriste Lindenmeyer, 2000-06 This collection of seventeen minibiographies sheds light on the often neglected herstory of U S history from the revolutionary era through the late twentieth century In addition this volume suggests the complexity of studying the past when gender race class region age and ethnicity are included in the analysis This book is unique in that it focuses on the lives of ordinary women The names of the vast majority of those whose stories are included here will likely be unfamiliar even to serious students of American women's history The varied experiences of

such women help to create a more complete picture of the past by revealing the influence general historical trends have had on the lives of ordinary individuals. But ordinary does not mean lesser nor does it denote class, race, ethnicity, or age. The individual women's stories that are told in the following pages show that even people who are not featured in mainstream history texts led lives that deserve the attention of those interested in understanding the past. The authors of these chapters have found support for generalizations commonly held by American women's historians. Nonetheless, their research has also led to unexpected findings that ask students of women's history to examine assumptions about the past more closely.

Standoff at High Noon Bill Markley, Kellen Cutsforth, 2021-10-22 In *Standoff at High Noon*, the sequel to *Old West Showdown*, coauthors Kellen Cutsforth and Bill Markley again investigate ten well-known controversial stories from the Old West. Through their opposing viewpoints, learn more about notorious figures and infamous events, including the controversial death of Davy Crockett at the Alamo, the life and death of Sacagawea who assisted Lewis and Clark on their Corps of Discovery Expedition, the tragic fate of the Donner Party snowbound in the Sierra Nevada, the assassination of Wild Bill Hickok, Arizona's Lost Dutchman Mine, and the controversy over Butch Cassidy's death in South America. No matter whose side you are on, there's always something new to discover about the mythic Old West.

The Western, 1875 **American Trinity** Larry Len Peterson, 2017-09-11 *American Trinity* is for everyone who loves the American West and wants to learn more about the good, the bad, and the ugly. It is a sprawling story with a scholarly approach in method but accessible in manner. In this innovative examination, Dr. Larry Len Peterson explores the origins, development, and consequences of hatred and racism from the time modern humans left Africa 100,000 years ago to the forced placement of Indian children on off-reservation schools far from home in the late 1800s. Along the way, dozens of notable individuals and cultures are profiled. Many historical events turned on the lives of legendary Americans like the Father of the West, Thomas Jefferson, and the Son of the West, George Armstrong Custer, two strange companions who shared an unshakable sense of their own skills as their interpretation of truths motivated them in the winning of the West. Dr. Peterson reveals how anti-Indian sentiments were always only obliquely about them. They were victims, but not the cause. The Indian was a symbol, not a real person. The politics of hate and racism directed toward them was also experienced in prior centuries by Jews, enslaved Africans, and other Christians. Hatred and racism when taken into the public domain are singularly difficult to justify, which is why Europeans and Americans have always sought vindication from the highest sources of authority in their cultures. In the Middle Ages, it was religion; supplemented later by the philosophy of the Enlightenment. In nineteenth-century Europe and America, religion and philosophy were joined by science and medicine to support Manifest Destiny, scientific racism, and social Darwinism, all of which had profound consequences on Native Americans and the Spirit of the West. Presenting research in anthropology, archaeology, biology, history, law, medicine, religion, philosophy, and psychology, Dr. Peterson provides the latest observations that delineate why the Native American's life was destroyed. *American Trinity* is a stunning portrait, a view at once unique.

panoramic and intimate It is a fascinating book that will make you think about the differences between belief and knowledge about the self skepticism of science and medicine and about what aspects of the world we take on faith *Book Review: Undaunted Courage: Meriwether Lewis, Thomas Jefferson, and the Opening of the American West* , Presents a book review about Undaunted Courage Meriwether Lewis Thomas Jefferson and the Opening of the American West by Stephen E Ambrose and published by Simon and Schuster in 1996 Explains that Ambrose discusses the relationship between Lewis and Jefferson and reconstructs the expedition *An Outline of the Political and Social Life of George Washington* James Tyson,1895 *Journal of the Senate of the State of New York* New York (State).
