We Live Forever:

Awakening Osiris Normandi Ellis,2023 The Egyptian Book of the Dead is one of the oldest and greatest classics of Western spirituality Until now the available translations have treated these writings as historical curiosities that have little relevance to our contemporary situations This new version made from the hieroglyphs approaches the Book of the Dead as a profound spiritual text capable of speaking to us today These writings suggest that the divine realm and the human realm are not altogether separate they remind us that the natural world and the substance of our lives is fashioned from the stuff of the gods

The Hope and Despair of Human Bioenhancement Paschal M. Corby,2019-12-23 The Hope and Despair of Human Bioenhancement is a virtual dialogue between Transhumanists of the Oxford School and the thought of Joseph Ratzinger Set in the key of hope and despair it considers whether or not the transhumanist interpretation of human limitations is correct and whether their confidence in the methods of human enhancement especially through biotechnology corresponds to genuine hope To this end it investigates the philosophical foundations of transhumanism in modernity s rejection of metaphysics the triumph of positivism and the universalism of the theory of evolution which when applied to anthropology becomes the materialist reduction of the human person Ratzinger calls into question this absolutization of positive reason and its limitation of hope to what human beings can produce naming it a pathology of reason a mutilation of human dignity and a facade of a world without hope In its place he offers a richer concept of hope that acknowledges our contingency and limitations
