Miniature Codices in Early Christianity Michael J. Kruger,2025-06-07 While there has been renewed scholarly interest in paratextual features of early Christian manuscripts that interest has rarely extended to the size of manuscripts particularly the format known as the miniature codex Such neglect is surprising given that this miniature format was a notable part of early Christian textual culture emerging as early as the second century and visible well into the seventh century and beyond So established was this format among Christians during this period that C H Roberts once surmised incorrectly that The miniature codex would seem to be a Christian invention Many of these tiny books were elegant well crafted and could contain a surprising number of pages Currently we have over 60 such codices which contain a wide range of Christian literature including New Testament books patristic and non canonical writings e g the Didache Acts of Paul and apocryphal gospels and even liturgical ritual texts This volume is the first full length monograph on the phenomenon of the miniature codex offering a framework for distinguishing miniature codices from other tiny texts e g amulets exploring their practical and iconic functions and perhaps most importantly assembling a detailed catalogue of all known Christian and Greek miniature codices This distinctive book format provides an essential window into the textual literary and visual culture of early Christianity shedding fresh light on how and why Christians were considered people of the book **The New Photo-miniature** ,1908

Tennant,Ben Jehudah Lubschez,1914 **Between Constantinople and Rome** Kathleen Maxwell,2016-12-05 This is a study of the artistic and political context that led to the production of a truly exceptional Byzantine illustrated manuscript Paris Biblioth que Nationale de France codex grec 54 is one of the most ambitious and complex manuscripts produced during the Byzantine era This thirteenth century Greek and Latin Gospel book features full page evangelist portraits an extensive narrative cycle and unique polychromatic texts However it has never been the subject of a comprehensive study and the circumstances of its commission are unknown In this book Kathleen Maxwell addresses the following questions what circumstances led to the creation of Paris 54 Who commissioned it and for what purpose How was a deluxe manuscript such as this produced Why was it left unfinished How does it relate to other Byzantine illustrated Gospel

books Paris 54 s innovations are a testament to the extraordinary circumstances of its commission Maxwell s multi disciplinary approach includes codicological and paleographical evidence together with New Testament textual criticism artistic and historical analysis She concludes that Paris 54 was never intended to copy any other manuscript Rather it was designed to eclipse its contemporaries and to physically embody a new relationship between Constantinople and the Latin West as envisioned by its patron Analysis of Paris 54 s texts and miniature cycle indicates that it was created at the behest of a Byzantine emperor as a gift to a pope in conjunction with imperial efforts to unify the Latin and Orthodox churches As such Paris 54 is a unique witness to early Palaeologan attempts to achieve church union with Rome
