Values In America:

America's Crisis of Values Wayne E. Baker, 2006-07-23 Is America bitterly divided Has America lost its traditional values Many politicians and religious leaders believe so as do the majority of Americans based on public opinion polls taken over the past several years But is this crisis of values real This book explores the moral terrain of America today analyzing the widely held perception that the nation is in moral decline It looks at the question from a variety of angles examining traditional values secular values religious values family values economic values and others Using unique data from the World Values Surveys the largest systematic attempt ever made to document attitudes values and beliefs around the world this book systematically evaluates the perceived crisis of values by comparing America's values with those of over 60 other nations The results are surprising The evidence shows overwhelmingly that America has not lost its traditional values that the nation compares favorably with most other societies and that the culture war is largely a myth The gap between reality and perception does not represent mass ignorance of the facts or an overblown moral panic Baker contends Rather the widespread perception of a crisis of values is a real and legitimate interpretation of life in a society that is in the middle of a fundamental transformation and that contains growing cultural contradictions Instead of posing a problem the author argues this crisis rhetoric serves the valuable social function of reminding us of what it means to be American As such it preserves the ideological foundation of the nation *Commercial America*, 1918 *Remaking American Values* Neil W. Chamberlain, 1977 *American Values and Habitat*, 1976 **Values in America** Clyde Kluckhohn, Donald N. Barrett, 1961 **American Lumberman**, 1907 *The Negro in America* Arnold Marshall Rose, 1964 **Changing Values, Persisting Cultures** Thorleif Pettersson, Yilmaz R. Esmer, 2008 In 1981 the European and World Values surveys started the empirical investigation of cultural values on a global scale This volume builds upon the findings of these surveys and analyzes value change in a number of key countries around the globe The authors track value change and stability in their respective countries during the last decade the last two decades where data are available of the 20th century All authors have been actively involved in value surveys and have a great deal of expertise in countries that they write on Thus the volume is a valuable complement to studies that deal with the topic from a global perspective without providing any detail about individual societies The countries covered are Argentina Austria Canada Denmark France Germany Mexico the Netherlands South Africa South Korea Spain Sweden Turkey and the United States *Publication of the American Sociological Society*, 1916 **America's Merchant Marine** Bankers Trust Company (New York, N.Y.), 1920 **The Shorthorn in America**, 1916 **America's Interests as Affected by the European War** American Academy of Political and Social Science, 1915 *American Insurance Digest and Insurance Monitor*, 1919 *Core Values in American Life* Arthur G. Neal, Helen Youngelson-Neal, 2014-05-23 What values do Americans hold dear What happens when real world situations cause those values to conflict To better understand the intellectual map of how American society works Arthur G Neal and Helen

Youngelson Neal analyze values prominent in American word and deed These values appear in our nation s formal documents rights and privileges prominently emphasized in the US Constitution and inscribed on the Statue of Liberty They have shaped the historical destiny and indeed include those values most extensively propagated by the general population Using these criteria the authors identify individualism the pursuit of happiness freedom consumerism materialism equality of opportunity technology mastery of the environment quality of marriage and national unity as the core American values Core values provide the raw materials for the construction of contemporary society as a moral community wherever that community is located Such values are clusters of ideas that are central to self identities they generate a sense of collective belonging and membership As such core values define the existing social order and advance a set of ideas for depicting a desirable future The analysis presented here helps us understand contemporary conflicts inherent in the American value system and the problems confronted by Americans as they try to live within the limitations and contradictions of value systems
