Values In Conflict:

Complexity and the Experience of Values, Conflict and Compromise in Organizations Ralph Stacey, Douglas Griffin, 2008-03-20 What role do values play in organizational life How do they shape the efficiency and effectiveness of organizational change This volume examines what we actually mean when we use the term values and what it means to act according to values in ordinary everyday life The contributors to this volume provide an exposition of the circular relationship between values conflict and compromise It can be said that current research lacks a thorough exploration of what we actually mean by human values and what it means to act according to values in ordinary everyday life in organizations This is what the chapters in this volume seek to address through the reflections of organizational practitioners on their ordinary work in organizations Covering subject areas such as organizational theory and behaviour and organizational analysis as well as the sociology of work and industry this book will appeal to researchers and practitioners alike Leadership Roles and Management Functions in Nursing Bessie L. Marquis, Carol Jorgensen Huston, 2009 Now in its Sixth Edition this foremost leadership and management text incorporates application with theory and emphasizes critical thinking problem solving and decision making More than 225 case studies and learning exercises promote critical thinking and interactive discussion Case studies cover a variety of settings including acute care ambulatory care long term care and community health The book addresses timely issues such as leadership development staffing delegation ethics and law organizational political and personal power management and technology and more Web links and learning exercises appear in each chapter An Instructor s CD ROM includes a testbank and PowerPoint slides The Implications of Value Conflict Marina Kouzakova, Naomi Ellemers, Sophia Fieke Harinck, Daan Scheepers, 2011 We present two studies demonstrating the implications of having different values vs instrumental concerns in a situation where people take conflicting positions Study 1 N 266 examined how people respond to a range of conflict issues that were framed either as referring to conflicting values or as referring to conflicting interests Study 2 N 77 used a more immersive methodology in which participants were led to consider either their values or interests in taking up a particular position after which they were presented with a confederate who took up the opposite position Results of both studies converge to demonstrate that framing a particular conflict issue in terms of values causes people to experience more self involvement and to perceive less common ground This is seen as a potential explanation of why value conflicts tend to more easily escalate than conflicts of interests but also offers scope for interventions that try to de escalate and resolve the conflict by emphasizing instrumental rather than value differences
