The Rise of the French Novel Martin Turnell,1978 Martin Turnell s *The Rise of the French Novel* is a successor to his highly praised earlier books *The Novel in France* 1951 and *The Art of French Fiction* 1959 His aim now however is somewhat different as can be seen from the title It is well known that the reputations of many writers novelists especially diminish for a period following their deaths Although in the eighteenth century Marivaux Cr billon fils and Rousseau all enjoyed a great deal of popularity during their lifetimes it is only recently that they have been subject to truly searching studies Yet they remain little read in English speaking countries Turnell emphasizes that in spite of the hostility of French critics and the fact that the novel did not reach its supremacy even in France until the nineteenth century the beginning of its great rise was indeed with such writers as these Their strong influence led such nineteenth century novelists as Stendhal and Flaubert to all kinds of changes related to style the enormous increase in the range of subject matter and the marked development of language Flaubert is the most striking example It was pointed out some time ago by Eisenstein that *Madame Bovary* anticipates cinematic technique One of Turnell s most interesting chapters explores the connections between the novel and film in general and *Madame Bovary* in particular In our own time two of the most popular French novelists in both the United States and England are Alain Fournier and Radiguet They are given enthusiastic appreciations in Turnell s thoughtful book **Ezra Pound as Critic** G.
