created in January 2004 to recognize celebrate and protect places of outstanding heritage value to the nation One aspect of natural heritage that has been little explored is Australia \_\_s wealth of exceptional fossil sites While a small number of fossil sites have risen to public prominence there are many lesser known sites that have important heritage values The Australian Heritage Council engaged palaeontologists from state museums and the Northern Territory Museum and Art Gallery to compile lists of outstanding fossil sites and to document their characteristics and relative importance against a range of categories with a view to further understanding about Australia \_\_s important fossil heritage Sites that were listed for National or World Heritage values were not included in the places for consideration with the focus being on lesser known but still important sites This book is an account of the palaeontologists \_\_ findings Australia \_\_s Fossil Heritage provides a useful reference to the outstanding fossil sites it catalogs and gives a clearer understanding of the heritage values of such sites More generally it contributes to a greater appreciation of Australia \_\_s geological and fossil diversity and enables readers to learn more about Australia \_\_s prehistory
