We Were is intended for 3-6 characters of levels 3-5. Welcome to a world where yes it can get worse and usually does. Anything is possible but the possibilities often wind up having scales, fangs, claws, and a particular penchant for snacking on human flesh. Here you'll find the deranged, the deviant, and the deadly. And that's not even talking about the monsters yet. While perhaps a darker world, *Alterkine* still provides many opportunities for daring fights and feats that set the commoner apart from the true hero or simply the unlucky dead from the skin of their teeth survivors. Or you might just be in it for the cash or because you harbor a nasty lust for violence and death that blurs the line between monster and man. Whatever the case, you knew the risks when you chose this life, and now it's just a question of whether you'll live long enough to collect on your next paycheck.

[Heart of Glass \(D20 Companion Book\)](#), 2006-10. War is brewing between the thieves of the *NachtKrichen* guild and the Freelancers. 'Tis said that the *Crna Ruk* assassins, those faceless minions of the horned god, are pulling the strings. And not least, there are reports that the Undead have come to *Ihlsa*. It is in this marlstrom that the party must survive. They must penetrate this reclusive dark world to unravel its mysteries, and if able, to upset the plans of the Lords of *Helliwell* and retrieve the magical artifact which he so ardently desires, the *Heart of Glass*. This d20 system Setting Adventure, though designed for 4-6 characters of levels 8-9, is playable at any level in any setting.

Frostgrave, Joseph A. McCullough, 2015-07-20. In this fantasy skirmish wargame, wizards do battle amidst the frozen ruins of the ancient city of *Felstad* in the hopes of discovering the treasures of a fallen empire. Each player takes on the role of a wizard from one of ten schools of magic and builds his band of followers. The wizard's apprentice will usually accompany his master, and more than a dozen other henchmen types are available for hire, from lowly thugs to heavily armoured knights and stealthy assassins. Wizards can expand their magical knowledge by unlocking ancient secrets and can learn up to 80 different spells. As they gain power and wealth, wizards can also develop their headquarters on the outskirts of the city, turning one of a dozen different basic locations into bastions of their art, equipping them with alchemical laboratories, mystical forges, astronomical telescopes, and other magical resources. While individual games of *Frostgrave* are quick and can easily be played in an hour or two, it is by connecting these games into an ongoing campaign that players will find the most enjoyment. The scenarios given in the book are merely the beginning of the limitless thrilling adventures that can be found amidst the ruins of the lost city.
