Welcome To Libya:

Welcome to Libya Ronald Tan,2005 An overview of the geography history government economy people and culture of Libya

Oil States in the New Middle East Kjetil Selvik,Bjørn Olav Utvik,2015-07-16 Oil has been central to regime survival for oil states across the Arabian Peninsula and has been at the heart of their attempts to defuse the wave of Arab revolutions However in 2011 revolution hit Libya the most oil dependent regime in the Middle East The political storm winds that have swept this region have thrown into doubt the resilience of Arab rentier states and highlight how the political effects of oil vary across the oil producing countries Oil States in the New Middle East brings together leading experts to critically assess the centrality of oil and the relevance of Rentier State Theory in light of the post 2011 upheaval across the Middle East and North Africa It combines overall reflections on the political dynamics in oil states with focused case investigations of individual countries Taking as its starting point the centrality of oil in explanations of regime survival the book analyses how the oil states have responded to and fared throughout the Arab popular upheavals resulting in a critical assessment of the continued relevance of Rentier State Theory While observers have asked how the uprisings varied between oil and non oil states this book turns the comparative focus inward arguing for a more fine grained understanding of the political effects of oil in different oil producing countries This book would be of interest to students and scholars of Middle East North Africa and Gulf Studies Oil and Politics as well as Comparative Politics and International Political Economy

Mass Atrocities, the Responsibility to Protect and the Future of Human Rights Simon Adams,2021-01-26 This book ambitiously weaves together history and politics to explain all of the major situations where mass atrocities have occurred or been prevented over the 15 years since the Responsibility to Protect R2P was adopted at the 2005 UN World Summit The author provides a history of human rights mass atrocities and the principle of the R2P from the perspective of someone whose day job has been to work with the UN Security Council various governments and civil society to help ensure the international community does not fail those who face the threat of genocide war crimes and crimes against humanity today It examines the implementation of the controversial principle of R2P since 2011 and how we end the politics of impunity indifference and inaction once and for all Using case studies from Iraq Syria Myanmar and Libya the book offers a unique perspective regarding how we make never again a living principle rather than a cliché and how we end the politics of impunity indifference and inaction once and for all It will be of especial interest to scholars students and policymakers working in the fields of international politics or concerned about human rights atrocities the United Nations and international justice in the world today
