The Psychology of Global Citizenship Stephen Reysen, Iva Katzarska-Miller, 2020-07-17 In *The Psychology of Global Citizenship: A Review of Theory and Research* Stephen Reysen and Iva Katzarska-Miller provide a theoretical and empirical overview of global citizenship and related concepts. The authors highlight core components shared by a variety of disciplines and cultures and linked to pro-social values such as the promotion of empathy, diversity, environmental sustainability, and intergroup helping. Utilizing a social psychological perspective, Reysen and Katzarska-Miller provide an integrated approach to global citizenship identification with their model of antecedents, global awareness, and normative environment and outcomes, six clusters of pro-social values.

Educating for Human Rights and Global Citizenship Ali A. Abdi, Lynette Shultz, 2009-01-01 Nearly sixty years after the Universal Declaration of Human Rights, in spite of progress on some fronts, we are in many cases as far away as ever from achieving an inclusive citizenship and human rights for all. While human rights violations continue to affect millions across the world, there are also ongoing contestations regarding citizenship. In response to these and related issues, the contributors to this book critique both historical and current practices and suggest several pragmatic options, highlighting the role of education in attaining these noble yet unachieved objectives. This book represents a welcome addition to the human rights and global citizenship literature and provides ideas for new platforms that are human rights friendly and expansively attuned toward global citizenship.

Their personal stories and reflections illustrate how global citizenship relates to important concepts such as awareness, responsibility, participation, cross-cultural empathy, international mobility, and achievement.
