Matthias Lütke Entrup,2005-07-15 Production planning in fresh food industries is a challenging task Although modern
Advanced Planning and Scheduling APS systems could provide significant support APS implementation numbers in these
industries remain low Therefore based on an in depth analysis of three sample fresh food industries dairy fresh and
processed meat the author evaluates what APS systems should offer in order to effectively support production planning and
how the leading systems currently handle the most distinguishing characteristic of fresh food industries the short product
shelf life Starting from the identified weaknesses customized software solutions for each of the sample industries are
proposed that allow to optimize the production of fresh foods with respect to shelf life The book thereby offers valuable
insights not only to researchers but also to software providers of APS systems and professionals from fresh food industries
