

The Diamond Bubble

Gadi Barlevy

The Diamond Bubble:

Asset Bubbles and Macroeconomic Policy Gadi Barlevy, 2025-12-23 An insightful and in depth review of asset bubbles what they are when and why they arise and how macroeconomic policy should respond to them The existing models of asset bubbles assets whose price exceeds the present discounted value of the dividends these assets are expected to pay out have been used to explain various episodes of asset boom and busts ranging from those of the eighteenth century to the present day including the dot com and housing booms of the last 25 years In *Asset Bubbles and Macroeconomic Policy* Gadi Barlevy begins by describing historical examples of asset boom and busts that prompted economists to be interested in modeling bubbles and then goes on to discuss impossibility results or situations in which asset bubbles cannot occur The book then proceeds to discuss various scenarios in which these impossibility results do not apply and bubbles are possible These scenarios include bubbles associated with dynamic inefficiency credit market frictions private information subjective beliefs and risk shifting For each of these different explanations the book discusses specific models to illustrate how a bubble can occur the empirical predictions of those models and implications for policy [The Diamond Bubble](#) Robert L. Fish, 1965

Diamonds, Gold, and War Martin Meredith, 2009-09-14 SOUTHERN AFRICA was once regarded as a worthless jumble of British colonies Boer republics and African chiefdoms a troublesome region of little interest to the outside world But then prospectors chanced upon the world's richest deposits of diamonds and gold setting off a titanic struggle between the British and the Boers for control of the region It culminated in the costliest bloodiest and most humiliating war that Britain had waged in nearly a century and left the Boer republics devastated In this gripping history of the turbulent years leading up to the founding of the modern state of South Africa in 1910 Martin Meredith portrays the great wealth and raw power the deceit corruption and racism that lay behind Britain's empire building in southern Africa *Diamonds Gold and War* is a tale of high adventure high finance and high politics that also shows the massive impact of white expansion on indigenous African societies And it explains the rise of the virulent Afrikaner nationalism that eventually took hold with repercussions lasting nearly a century [Diamonds, Gold, and War \(Volume 1 of 2\) \(EasyRead Edition\)](#), [Stock Markets, Speculative Bubbles and Economic Growth](#) Mathias Binswanger, 1999 Binswanger economics the University of Applied Sciences Switzerland sheds new light on the role of speculative bubbles in the stock market and argues that bubbles may have a positive effect He refutes arguments that bubbles increase instability and contends that bubbles may provide additional investment opportunities with the potential to increase aggregate profits He demonstrates that highly sophisticated financial systems are needed in order to allow for positive effects to develop and examines recent experience in Asia where destabilizing effects of bubbles outweighed potential benefits [The Annual Register](#) Edmund Burke, 1873 Continuation of the reference work that originated with Robert Dodsley written and published each year which records and analyzes the year's major events developments and trends in Great Britain and throughout the world From the 1920s volumes of *The Annual Register* took the

essential shape in which they have continued ever since opening with the history of Britain then a section on foreign history covering each country or region in turn Following these are the chronicle of events brief retrospectives on the year s cultural and economic developments a short selection of documents and obituaries of eminent persons who died in the year
